XIV. Actuarial Study – Ex-Mods

Historically, ACSIG experience modification factors were not “re-benched” to 1.00. The result was program underfunding. In 2008, the Executive Committee and Board agreed to begin a multi-year funding model to begin “re-benching” ex-mods to 1.00. Program year 2009/2010 was the first year of this process. It was the expectation that the rates would become more consistent due to the use of actuarially determined experience-modification rates. Prior to 2013/2014, the ACSIG Board imposed a cap in the amount an ex-mod could increase/decrease in any one program year. Beginning in 2013/14 the actuarially determined ex-mod will be used with no maximum change cap. The assumption that all exmods will remain between 0.75 – 1.25 will continue.

XVI. 5-year Point in Time Comparison

Michael Clark from Keenan and Associates discussed the 5-year workers compensation claim trend. As resources are dedicated to improve frequency and severity of injuries within ACSIG, it is important to review claims data to evaluate the effectiveness of programs. Through analysis, we can identify trends within Districts. Additionally, we can identify if there are any abnormalities between program years within Districts so resources can be targeted when necessary. The JPA is trending well.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: 2020/2021 Executive Committee

The Alameda County Schools Insurance Group (ACSIG) has a seven member Executive Committee that works directly with the Executive Director to manage the operations of ACSIG. The Committee members serve a 2-year term and the expiration of term is on a cycle so that 3 seats are up in one year and the remaining 4 seats expire the subsequent year.

Due to the retirement of Raul Parungao, the Executive Committee has a vacancy.

The Executive Committee meets approximately 4 times a year, including the annual strategic planning session.

The committee will discuss recruitment efforts for the Full Board meeting.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: Draft 2019/2020 Annual Report

A goal established by the Executive Director was the development of a report to document the historical perspective of the JPA and to highlight the progress of ACSIG. Because this is the third Annual Report published, we tried to target program specific goals and objectives and provide the reader a good explanation of ACSIG Services. Enclosed is a draft annual report developed in response to this goal. Because this is a draft report, please feel free to provide feedback to improve the document.

The draft will be reviewed with the Executive Committee and presented to the full Board at its November 12, 2020 meeting.

Executive Director's Message

2020....Where to begin? Had anyone told us in January that we would be quarantined and working remotely for 8 months in 2020, we would NOT have believed them. Our nation is different than it was in 2019. The nature of our work and priorities of our day have completely shifted. Our vocabulary is dominated by terms like pandemic, PPE and social distancing and we haven't seen anyone without a mask in months. Both our workplace and our delivery of services required instant transition. We are facing challenges we could have never imagined.

As I reflect on 2020, I am truly amazed at the capacity and resiliency of our members. We now work remotely and support a new educational experience yet none of the full time work we did before the pandemic has gone away. We had to shut down in a day and re-open in a virtual world. While this new on-line experience has presented new challenges, you all continue to represent your agency and the JPA. The Workers' Compensation team has been able to support all members without skipping a beat. We have learned how to manage personnel working from home and ensure that they still are practicing safe work practices. Loss Control has been able to conduct ergonomic evaluations via Zoom and virtual trainings are now commonplace. Industry meetings and trainings are all occurring remotely, and we have found a higher level of efficiency by eliminating travel and the commute.

Social Justice is at the forefront of everyone's mind. It is each of our responsibility to facilitate conversations between our peers to better understand and appreciate our differences. We must focus our

energy on being the change that this world needs. We are so fortunate to live in a geographic area that is representative of many cultures and support students from diverse backgrounds. We must celebrate our differences and learn to be better from each other.

As we look toward 2021, we already know that there will be challenges in the insurance market. Fires are ravaging our State once again, legislative changes have widened the time for which claims can be filed, remote learning platforms are being threatened by hackers and settlement demands have exploded. Add that to the economic deficiencies throughout our State and Nation and next year looks daunting. Throughout my 30 + year career within the school community, I have learned that the best can come from times like these. Better policies emerge, better methods of service delivery are developed, and we all become better people. I encourage you to take a moment to reflect on your phenomenal achievements this year and take every opportunity to enjoy today.

Kimberly Dennis

Our Mission

Alameda County Schools Insurance Group is an accredited JPA that conservatively balances cost and risk through self- supporting, service driven insurance programs that is committed to providing services to district and county members through education and outstanding customer service.

President's Message

2019/20 turned out to be as unpredictable as anyone could have ever imagined.

As we wrap up and reflect on this past year and the events that tested our patience, fortitude, and our agility, we should all feel proud! We continue to face, head-on, in our respective districts and offices, the challenges and the ever-changing unknowns of these truly uncharted times.

On that same breath we should celebrate and feel proud of what we accomplished this past year in the Alameda County Schools Insurance Group. During these times when business is everything but usual, we remained steadfast.

The expansion of certain programs, like Shoes for Crews being extended to custodial and maintenance personnel, and the kick-off of the Employee Assistance Program (EAP), are testaments that we stayed focused in our efforts and objectives and in meeting the needs of our members. I would like to acknowledge the work of Kimberly Dennis and her team for staying responsive and in sharing relevant and timely information.

The success of our group is a direct result of all of our efforts together. We all play a role in keeping member services and benefits at the forefront of changes and complexities affecting school systems, students, and employees.

As I proudly point out - our finances are in order, our investments are sound, and our programs are responsive to our member's needs.

On behalf of the Executive team, thank you for your ongoing support, and for the opportunity to serve as your President.

Workers Compensation Program

Core Program

The Alameda County Schools Insurance Group (ACSIG) was founded in 1978 for the purpose of self-insuring for Workers' Compensation claims exposure.

This core program has grown throughout the past 35 years and now includes 19 member agencies and employee payroll of over \$1 billion.

Self-Insured Retention

At inception ACSIG was a 100% self-insured program. Beginning in 1979, ACSIG began purchasing reinsurance to provide for catastrophe claims. The following schedule details the self-insured retention and dollar value at which reinsurance was purchased for the program since inception.

Coverage by Fiscal Year

<u>Occurrence</u>	<u>Self-Insured Retention</u>
July 1, 1978 – June 30, 1979	Unlimited
July 1, 1979—June 30, 1980	\$250,000
July 1, 1980—June 30, 1981	\$250,000

Service Team Model

One of the most exciting things about the ACSIG/Keenan partnership is the Service Team delivery model. The Service Team consists of the ACSIG Executive Director, Claims Manager, Account Manager, Risk Management Analyst and Loss Control Specialists. This dedicated team works together to maximize efficiency and services to reduce the frequency and severity of Workers Comp claims. The Service Team analyzes loss data in a variety of terms in an effort to target resources to the areas most in need.

Workers Compensation Claims Administration

Since Partnering with ACSIG in July 2007, Keenan has continually improved upon the success achieved the year before. The Key to our success has been our adherence to our basic claims philosophy; effectively manage all aspects of a claim to ensure that benefits are delivered efficiently, and in accordance with California Labor Code. We approach every claim individually, proactively managing the benefits and moving the claim to final resolution. Through utilization of our best practices, and proprietary products, we can provide ACSIG members and their employees with superlative service in the most efficient and cost effective manner. To that end, during the 19/20 fiscal year we were able to deliver the following high level results to ACSIG's member districts:

- From July 2019 to June 2020, Keenan Claims Administration successfully closed/resolved 18 tail claim files (13% of ACSIG's self-insured workers compensation claims inventory from the prior year) 7 of the file closures were full and final Compromise and Release settlements. ACSIG ended the fiscal year with a total 93 claim files (12 Active Indemnity & 81 Future Medical).
 - The impact of the claims activity for the fiscal year resulted in an overall reduction of \$3,472,220 in the self-insured workers compensation claim liabilities, which contributed to the \$29,351,572 positive effect on the ACSIG's financial position.
- Utilization of Keenan's PRIME program has also delivered significant savings to ACSIG:
 - Overall reduction of 58% for fiscal year 2018/2019 with net savings of \$4,066,255.75. Overall reduction of 59% for fiscal year 2019/2020 with net savings of \$3,996.825.00.
 - Return on investment realized for fiscal year 2018/2019 was \$6.12 Return on Investment for fiscal year 2019/2020 was \$6.11.
 - There were continued savings realized with the Nurse Case Management Savings and Utilization Reviews. Net savings for FY 2019/2020 \$687,045.

The administration of claims by Keenan is based on a district specific caseload handled by a designated Claims Examiner. The designated Claims Examiner handles all claims for the district and is wholly responsible for overall district satisfaction and claims performance. We continue to receive positive feedback regarding this structure of claim handling.

Account Manager Role and Activities

The Account Manager is responsible for servicing and providing technical support to the JPA. The Account Manager works closely with the Executive Director to develop a strategic plan to provide focus and accountability for meeting the needs identified by the JPA and Keenan. Below is a list of the responsibilities and services provided by the Account Manager:

- Provides proactive day-to-day client service by anticipating client needs and responding to client questions and issues in a timely manner
- Oversees the renewal process by working with the Executive Director to obtain payroll information, monitor questionnaire process, sends renewal binders & invoices.
- Maintain relationships with member districts by providing regular visits and open communication
- Works closely with claims and loss control departments on client-related issues
- Schedules and coordinates quarterly Workers' Compensation claim specific lunch and learns
- Provides informational brochures and posters for the WeTip program to districts as needed
- Provides monthly updates of the JPA service plan and provides monthly P&C Bridge and Keenan SafeSchools usage reports to the JPA Executive Director

In addition the Account Manager is responsible for the implementation and training of P&C Bridge and Keenan SafeSchools. The main focus of the Keenan service team, driven by the account manager, is to meet with new district contacts to provide training, to be a resource to current contacts as needed, and to assist the district with the assigning of Keenan SafeSchools online training courses.

Risk Management Analyst Role and Activities

The Risk Management Analyst has overall responsibility for the development and delivery of high quality, consistent and internally collaborative workers' compensation claims programs and customer service plans for the JPA and individual member districts. The Risk Management Analyst collaborates with the Executive Director to clearly outline the vision of the JPA and develop a strategic plan to carry out that vision. While not all inclusive, the following list demonstrates a variety of tasks handled by the Risk Management Analyst.

- Meet with member Districts and update individual profiles to identify the systems, programs in place, and specific areas for development by individual District.
- Modify Best Practice measures focused on improving internal/external communication and relations between Districts, medical providers, and the Keenan claims team, including meeting with all front-line providers within the Medical Provider Network.
- Attended majority of scheduled claims reviews, provide analytics and assist with Action Plans to bring claims to resolution and/or closure.
- Identify and follow through of training opportunities at the District level.

- Continue to be a resource to Districts interested in implementing Ability USA pre-employment physical abilities testing protocols.
- Maintain ADA/FEHA compliant Job Analysis Bank – Specific job analysis requirements have been completed for various Classified and Certificated positions.
- Conduct educational workshops/symposiums on topics including “Return-to-Work Program,” “Education Code Industrial Accident Benefits,” “Employment Practices Liability Resource Center,” “ADA-FEHA Symposium”.
- Expand the “Company Nurse” Nurse Triage & telephonic claims reporting tool. The program has continued to demonstrate reduced reporting lag time which leads to placing stronger emphasis on prompt claims investigations and expedited employee benefits

In addition to workers’ compensation issues, the Risk Management Analyst assists Districts with coordination of non-industrial “Fitness for Duty” efforts; “Cal OSHA requests for information”, “The Interactive Process”, “Special Education Resources” and “Employment Practices Liability Resources”

Loss Control / Risk Management

ACSIG closed out the 19/20 fiscal year with a total of 480 claims which had a total severity incurred of \$6.4M. This represents a decrease of 81 claims and a decrease of \$99,000 compared to last year. In addition, 10 of ACSIG's 19 members (52%) experienced the same, or a reduction in the number of claims this past year compared to last year, and these 10 members utilized over 74% of the total Loss Control time spent on all members, which was 1,508 hours in total. This once again shows a strong correlation between the utilization of Loss Control services being tied to a reduction of claims. Loss Control helped ACSIG control its losses in a variety of ways, including:

- ☐ 355 hours meeting and communicating safety information with members
- ☐ 333 hours conducting ergonomic evaluations
- ☐ 193 hours conducting employee safety trainings
- ☐ 93 hours assessing specific safety hazards
- ☐ 39 hours attending file reviews

Focus continued on Slips/Trips/Falls, as well as Back Injury/Lifting. Loss Control provided numerous trainings and site inspections specifically targeting these two main areas of employee injury. Eighteen PIPS related trainings were completed during the 19-20 year. Additional emphasis was on Custodial and Nutrition Service losses. A workplace observation of several kitchens was conducted at one district. Trainings conducted during the year included Slip Trip Falls, Blood Borne Pathogens, Ladder Safety, Back/Lifting Safety, and Personal Protective Equipment. As usual, Loss Control conducted a large amount of ergonomic evaluations (94 in total), with the vast majority of those being preventative in nature (pre-claim).

As a result of ACSIG's heavy utilization of Loss Control services, by June 30, 2019 the following members had experienced a reduction in overall claim frequency this year compared to last year:

☐ Alameda COE	☐ Mission Valley ROP	☐ San Leandro USD
☐ Albany USD	☐ New Haven USD	☐ Tri Valley ROP
☐ Fremont USD	☐ Newark USD	
☐ Livermore Valley Jt. USD	☐ Pleasanton USD	

Finally, but certainly not least, online training utilization increased by more than 68,000 courses from last year, resulting in over 152,000 courses completed by ACSIG members. The months of August & September 2019 and April & May 2020 were the most active months for training.

We will continue to focus on our loss drivers in the 20/21 school year which include Special Education training, Slip/Slip/Falls and Back Safety/Lifting. New focus areas are training for Aging Workforce, Substitute Employees, Kitchen Worker Safety and continued observation/training of work force body mechanics. Remote services are being offered to all clients. This includes ergonomic evaluations, employee training and meetings.

We look forward to our continued partnership with the ACSIG JPA to create a safe working environment for the member Districts' employees.

Property & Liability Program

General Program Information

- ACSIG expanded its program offerings to include property and liability coverage beginning in July 1, 1980.
- For many years, ACSIG self-insured 100% of the claim liability for the Property / Liability program.
- Beginning in 1993, ACSIG joined the Bay Area Schools Insurance Cooperation (BASIC). From 1993-2008, ACSIG self-insured the first \$150,000 of any property/liability claim and purchased reinsurance for the excess coverage.
- Beginning in 2008, ACSIG participates in the Northern California Regional Liability Excess Fund (NCR) for Excess Property & Liability coverage. The total per occurrence coverage for property is \$250,000; for liability is \$50,000,000.
- ACSIG self insures its first party property and liability claims at \$25,000 per occurrence and third party claim liabilities at \$25,000 per occurrence.
- Members' deductible/retention is \$5,000 per occurrence for any Property or Liability loss.
- The program includes \$636,532,665 in Total Insured Value (TIV) and represents 22,724 total Average Daily Attendance (ADA).

Dental Program

Beginning in 1988, ACSIG expanded its program offerings to include dental coverage to agencies in Alameda County. In 1996, the program was expanded statewide. In partnership with Alliant Insurance Services and Preferred Benefits, the EDGE coalition was formed. The coalition is administered through ACSIG. ACSIG is fully self-insured with Delta Dental for this program. ACSIG contracts with Alliant Insurance Services for all outreach and underwriting services. ACSIG contracts with Preferred Benefit for all eligibility and billing services.

ACSIG offers its members 3 options when joining the EDGE program:

- **Fully Insured** – pay a monthly rate per employee determined by underwriting based on their specific plan design and program offerings.
- **Self-Insured Monthly** – pay the actual amount of services rendered and a Delta administration fee and an ACSIG administration fee. The total amount of claims and fees is billed monthly in arrears.
- **Self-Insured Weekly** – Due to the large membership in some agencies, if another JPA joins ACSIG as a self-insured member, they are required to pay the actual claims and Delta administration fee on a weekly basis. The ACSIG administration fee is billed on the last weekly invoice of the month. ACSIG pays Delta Dental the weekly claims and Delta admin fee each week.

Rates are revised and voted on by the JPA Board each May.

There are more than 100,000 employees covered in the dental program with membership statewide with a total budget of \$150 million annually

PREFERRED BENEFIT
INSURANCE ADMINISTRATORS

Vision Program

Beginning October 1, 1988 ACSIG partnered with VSP to begin a vision coverage program. ACSIG is 100% self-insured through VSP for this program. Members can join as a fully- insured member or a self-insured member.

- **Fully Insured** – pay a monthly rate per employee determined by underwriting based on their specific plan design and program offerings.
- **Self-Insured** – pay the actual amount of services rendered and a VSP administration fee and an ACSIG administration fee. The total amount of claims and fees is billed monthly in arrears.

Rates are revised and voted on by the JPA Board each May.

Membership represents 30 agencies statewide. Because the program is self-funded, members have a lot of flexibility for plan design. The program totals more than \$2 million annually and covers 10,000 employees statewide. All eligibility is managed through ACSIG who partners with Alliant Insurance Services for all underwriting.

Report on the Financial Statements

We have audited the accompanying financial statements of the Alameda County Schools Insurance Group, as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Alameda County Schools Insurance Group's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Alameda County Schools Insurance Group, as of June 30, 2020 and 2019, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis on pages 3 through 10. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Alameda County Schools Insurance Group's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October XX, 2020 on our consideration of Alameda County Schools Insurance Group's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Alameda County Schools Insurance Group's internal control over financial reporting or on compliance.. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Alameda County Schools Insurance Group's internal control over financial reporting and compliance.

ALAMEDA COUNTY SCHOOLS INSURANCE GROUP MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020 AND 2019

The following report reflects on the financial condition of Alameda County Schools Insurance Group ("ACSIG") as of and for the fiscal years ended June 30, 2020, and 2019. It is provided in order to enhance the information in the independent financial audit, basic financial statements, and notes to the basic financial statements included in the financial audit report. Please read it in conjunction with the Group's financial statements, which immediately follow this section.

Introduction and Background:

Since July 1, 1978, the Alameda County Schools Insurance Group, a self-insurance pool, has provided coverage to local educational agencies in California. ACSIG operates programs for property/liability, dental and vision, and workers' compensation. In addition to its programs, ACSIG provides claims administration and loss control training to members.

ACSIG is governed by a 19-member Board of Directors, which is comprised of representatives from each member Group. From its members, the Board of Directors elects a President, Vice President, and Secretary as part of seven-member executive committee.

ACSIG's day-to-day operations are administered by an Executive Director who serves as the Chief Executive Officer. The Executive Director is responsible for the administration of policies as set forth by the pool's organizational documents, Bylaws, and the Board of Directors.

ACSIG's Dental, Vision, Workers' Compensation, and Property/Liability programs are comprised of Members from K-12 Schools Districts, Community Colleges, and Other Organizations, throughout the State of California. Membership varies by program.

Dental:

Effective in 1988, ACSIG expanded its program offerings to include dental coverage to agencies in Alameda County. In 1996, the program was expanded statewide. In partnership with Alliant Insurance Services and Preferred Benefits, the EDGE coalition was formed. The coalition is administered through ACSIG. ACSIG is fully self-insured with Delta Dental for this program. ACSIG contracts with Alliant Insurance Services for all outreach and underwriting services. ACSIG contracts with Preferred Benefit for all eligibility and billing services.

ACSIG offers its members 3 options when joining the EDGE program:

- Fully Insured – pay a monthly rate per employee determined by underwriting based on their specific plan design and program offerings.
- Self-Insured Monthly – pay the actual amount of services rendered and a Delta administration fee and an ACSIG administration fee. The total amount of claims and fees is billed monthly in arrears.
- Self-Insured Weekly – Due to the large membership in some agencies, if another JPA joins ACSIG as a self-insured member, they are required to pay the actual claims and Delta administration fee on a weekly basis. The ACSIG administration fee is billed on the last weekly invoice of the month. ACSIG pays Delta Dental the weekly claims and Delta admin fee each week.

**ALAMEDA COUNTY SCHOOLS INSURANCE GROUP
MANAGEMENT'S DISCUSSION AND ANALYSIS, continued
FOR THE YEAR ENDED JUNE 30, 2020 AND 2019**

Vision:

Beginning October 1, 1988 ACSIG partnered with VSP to begin a vision coverage program. ACSIG is 100% self-insured through VSP for this program. Members can join as a fully-insured member or a self-insured member.

- Fully Insured – pay a monthly rate per employee determined by underwriting based on their specific plan design and program offerings.
- Self-Insured – pay the actual amount of services rendered and a VSP administration fee and an ACSIG administration fee. The total amount of claims and fees is billed monthly in arrears.

Workers' Compensation:

On July 1, 2009, ACSIG became a member of Protected Insurance Program for Schools Joint Powers Authority (PIPS). PIPS is a workers' compensation self-insurance pool. Premium is paid to PIPS on an annual basis for payment of claim liabilities, claims administration, and risk management services. Its members are permissibly self-insured public agencies and as such may buy insurance or reinsurance to transfer some or all of the risks of the program. On an annual basis, the PIPS Board of Directors reviews various options for retaining or transferring some or all of the risks of each year's program and selects from these the one best suited to meet the goals of the program.

Prior to July 1, 2009, ACSIG self-insured the first layer of Workers' Compensation coverage. ACSIG varied its use of excess insurance over the years ranging from no excess coverage (100% self-insured) to securing excess coverage at \$250K.

Prior to July 1, 2007, ACSIG self-administered its Workers' Compensation claims. After self-review and difficult decision making, ACSIG partnered with Keenan & Associates for all claims administration services.

ACSIG had not adequately funded for their loss development for self-insured program years prior to 07/01/2009. Historically, the premium level for agencies was adjusted by a discount factor. As no validation existed for the application of a discount to rates, this practice was discontinued in 2007/2008. Beginning in 2008/2009, experience modification factors used to determine each agency's fees were modified so that in three years, all experience modification factors will be adjusted to 1.0. Also, in 2008/2009, all agencies experience modification factors were determined by an independent actuary. The effect of the change will improve the funds financial information and funding capability toward the IBNR.

The Board, recognizing without additional funding, there would not be a substantial reduction in the deficit, implemented, effective in the 2011/2012 a deficit recoupment plan, increasing the base rate by \$0.35/per \$100 of payroll. Effective June 30, 2017, the deficit has been eliminated and the deficit recoupment plan has been completed.

**ALAMEDA COUNTY SCHOOLS INSURANCE GROUP
MANAGEMENT'S DISCUSSION AND ANALYSIS, continued
FOR THE YEAR ENDED JUNE 30, 2020 AND 2019**

Property and Liability:

Beginning on July 1, 1980, ACSIG expanded its program offerings to include property and liability coverage. ACSIG self-insured at 100% the claim until 1993.

From 1993-2008, joined Bay Area Schools Insurance Cooperation (BASIC), ACSIG self-insured the first \$150K and purchased reinsurance for the excess coverage.

In 2008, ACSIG joined Northern California Regional Liability Excess Fund (Nor Cal ReLiEF). Coverage limits, per occurrence, are, property \$250,000,000; liability \$50,000,000. ACSIG self-insures, per occurrence, first party claims at \$25K, and third-party claim liabilities at \$25K. Each member has a retention/deductible of \$5K per occurrence.

Financial Highlights:

In 2019/2020, ACSIG's net position improved by \$12.3 million. In 2019/2020, the equity position has increased from \$32.4 million, as of 06/30/2019, to \$44.7 million as of 06/30/2020. All programs (below) are in an equity position.

By Program:

Workers' Compensation

In 2019/2020 the Worker's Compensation program added \$8.9 million to their equity position. As of 06/30/2020, equity in the program is \$29.4 million.

In 2019/2020, assets increased by \$5.5 million and liabilities decreased by \$1.7 million. Operating income was in excess of expense by \$7.9 million.

Based upon the annual actuarial report performed in 2019/2020, the re-estimation of the ultimate cost for the self-insured claims prior to 07/01/2009 decreased by \$1.7 million. The estimate of actuarial liability is increased by \$672 thousand related to the Castlepoint Reinsurance Insolvency.

Claim liabilities are discounted. As claims are paid, discount is applied to the decreasing cash reserve amount, in 2019/2020 the discount factor was revised from 1.75% to 2.0%, increasing the cash available for claim payments. All claim liabilities are fully-funded.

Property/Liability

In 2019/2020, the net equity position decreased by \$199 thousand, as of 06/30/2020, net assets remain in excess of liabilities by \$326 thousand. All liabilities are fully reserved in this program

Dental

In 2019/2020, the net equity position increased by \$2.6 million, as of 06/30/2020, net assets remain in excess of liabilities by \$11.9 million. No rebate was declared in 2019/2020. All liabilities are fully reserved in this program.

Vision

In 2019/2020, the net equity position increased by \$585 thousand, as of 06/30/2020, net assets remain in excess of liabilities by \$3.1 million. All liabilities are fully reserved in this program.

Financial Management and Control:

ACSIG is responsible for establishing and maintaining an internal control structure designed to ensure that assets are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The Executive Director provides financial oversight and cash management. This includes budgeting, accounts receivable, accounts payable, and, at a minimum, quarterly financial updates.

ACSIG has contracted with Keenan & Associates for Worker's Compensation and Property Liability Claim administrative responsibilities, which include ensuring that ACSIG meets its commitment to its Members, for both operational efficiency and organizational integrity, and implements policies established by the Board of Directors and Executive Director, as set forth in organizational documents and bylaws.

ACSIG's Dental Program is with Delta Dental of California and their Vision with Vision Service Plan. Alliant Insurance Services provides underwriting and administrative support for both programs.

ACSIG also contracts with Preferred Benefit Insurance Administrators to manage all eligibility and billing services for the program.

Service Enhancement Technologies (SETECH) a Division of Keenan & Associates provides financial management and reporting to the Board. SETECH maintains the detailed transaction register for all programs and cash accounts. Detailed financial statements include budget-to-actual comparisons and are provided to the Executive Director and the ACSIG Board.

ACSIG has also contracted an independent actuarial to review their programs. These studies confirm the adequacy and reasonableness of the liabilities recorded as outstanding claim reserves for all program years. Bay Actuarial Consultants review the Worker's Compensation and Property Liability programs. Healthcare Actuaries provides a review of the Dental and Vision programs.

Christy White Associates, A Professional Accountancy Corporation, is contracted to perform the annual independent audit examination of the financial statements in accordance with generally accepted accounting principles (GAAP).

Morgan Stanley Smith Barney LLC, is contracted for some of the investments for ACSIG. In 2010/2011, based upon Board action and review of long term liabilities and investment goals ACSIG invested \$10 million with Morgan Stanley. In 2011/2012, an additional \$5 million was added to this portfolio, increasing the transferred funds to \$15 million. These funds are invested in compliance with Government Code and the internal investment policy of ACSIG. Invested funds are shown at Fair Market Value on the financial statements in compliance with GASB Stmt #31.

Basic Financial Statements:

ACSIG's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and necessarily include amounts based upon reliable estimates and judgments. The Statement of Net Position, Statement of Revenue, Expenses and Changes in Net Position, and the Statements of Cash Flows are included.

The Statement of Net Position provides information on ACSIG's program assets and liabilities, with the difference reported as Net Position. The Statement of Revenues, Expenses and Change in Net Position presents information showing total operating revenues versus operating expenses and the resulting effect on Net Position. The Statement of Cash Flows is presented to reflect the operation based on inflows and outflows of cash.

Statement of Net Position:

Below is a consolidated summary of the Statement of Net Position as of 06/30/2018, 06/30/2019, and 06/30/2020 showing total assets versus total liabilities, with a percentage of change between program years.

MANAGEMENT'S DISCUSSION AND ANALYSIS, continued
FOR THE YEAR ENDED JUNE 30, 2020 AND 2019**

Basic Financial Statements (continued):

Assets:

In 2019/2020, the assets of ACSIG increased by \$6.2 million or 10.93%, as seen above, primarily attributed to an increase of cash. The major factors in this year's increase of cash can be seen on the cash flow statement.

Cash variances are mainly attributed to receipt of member contributions, and deficit assessments, which are less or greater than, claim payments, insurance premiums, and other operating expense. Investment income also increases cash and investments.

Liabilities:

In 2019/2020, the liabilities of ACSIG decreased by \$6.4 million or 26.32%.

This variance is mainly attributed to fluctuations in claim liabilities. Annually, program claims experience is evaluated by an independent actuary, claim liabilities are updated based upon these evaluations. Because the Workers' Compensation program represents over 90% of the consolidated program liabilities. The annual actuarial review and re-estimate of the Workers' Compensation ultimate claim cost, for the self-insured retained program years prior to July 1, 2009, is an integral factor in keeping the financials relevant.

The annual variance in liabilities can be seen below.

Net Position:

As of 06/30/2020, ACSIG's ending Net Position is \$44.7 million. An increase in net position of \$12.3 million, from 07/01/2019– 06/30/2020 is due to the following factors.

- 1) Increase in net assets from net operating income, greater than operating expenditures of \$10.9 million
- 2) Increase in net assets from non-operating investment income of \$1.4 million.

Statement of Net Position year variances can be seen below.

Statements of Revenues, Expenses and Change in Net Position:

In 2019/2020, revenues exceeded expenses by \$12.3 million, resulting in an increase to the Net Position. Details of these changes are shown below, in the Condensed Statements of Revenues, Expenses, and Changes in Net Position.

Statements of Revenues, Expenses and Change in Net Position (continued):

Operating revenue consists of contributions received from the members to offset budgeted operating expenses.

In 2019/2020 operating revenue decreased by \$13.9 million, or 8.80%. Operating expenses decreased by \$15.2 million, or 10.27%.

Operating revenue and expense increased primarily due to new membership in the Dental and Vision programs.

ALAMEDA COUNTY SCHOOLS INSURANCE GROUP
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General

Alameda County Schools Insurance Group (the “Group”) was established by a Joint Powers Agreement on July 1, 1978, in accordance with Title I, Division 7, Chapter 5, Article I Sections 6500, et. seq., of the California Government Code. The purpose is for the operation of a common risk management and insurance program for members related to workers’ compensation, property/liability, vision and dental benefits for member governmental agencies. The Group also purchases excess insurance and provides risk management services. The Group was formed by a joint powers agreement among member Alameda County School Groups. Participating members now include various school Groups and other government entities.

The Group is a California public entity as provided in Internal Revenue Code Section 115, it is tax exempt. The California Office of the Controller, Division of Local Government Fiscal Affairs, for the purpose of filing an Annual Report of Financial Transactions of Special Groups considers the Group to be a “Special Group.”

B. Admission and Withdrawal of Members

Entities applying for membership must be approved by a two-thirds vote of the full Board, upon the recommendation of the Executive Committee. Entities shall pay a quotation fee and the current premium contribution as determined by the Joint Powers Board, upon the recommendation of the Executive Committee.

Entities may withdraw from any program after having completed three consecutive years as members upon written notification to the Executive Committee by the dates specified in the bylaws. The effect of withdrawal (or termination) from the pooling programs does not terminate the responsibility of the entity to continue paying its share of assessments or other financial obligations incurred by reason of its previous participation.

C. Reporting Entity

The reporting entity includes all activities considered to be part of the Group. This includes financial activity relating to all of the membership years of the Group. In determining the reporting entity, the Group considered all governmental units that were members of the Group since inception. The criterion does not require the inclusion of these entities in the Group’s financial statements principally because the Group does not exercise oversight responsibility over any members.

D. Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. Under the accrual basis, revenues and the related assets are recognized when earned, and expenses and related liability are recognized when the obligation is incurred. Liabilities for reserves for open claims and claims incurred but not reported have been recorded in the Group’s financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Fund Accounting

The accounts of the Group are organized on the basis of funds, each of which is considered to be a separate accounting entity. These Proprietary funds have been combined for the presentation of the basic financial statements. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, net position, revenues and expenses. The general and administrative accounts of the Group are allocated to each program on a pro-rata basis. The five types of funds include:

1. Administrative Fund: The Administrative Fund accounts for revenues and expenses for general administrative purposes.
2. Workers' Compensation Fund: The Workers' Compensation Fund was established to account for the payment of workers' compensation claims and administrative costs. Funding is based on contributions established by the Executive Committee on behalf of the Joint Powers Board.
3. Property/Liability Fund: The self-insured Property/Liability Fund was established to account for the payment of property and liability claims and administrative costs. Funding is based on contributions established by the Executive Committee on behalf of the Joint Powers Board.
4. Vision Fund: The Vision Fund was established to administer the vision program for member agencies. Funding is accomplished through contributions established by the consultant based upon claims experience as approved by the Executive Committee.
5. Dental Fund: The Dental Fund was established to administer the dental program for member agencies. Funding is accomplished through contributions established by the consultant based upon claims experience as approved by the Executive Committee. Some members' claims are covered by the Group, while others are self-funded within the dental program.

F. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Group considers all highly liquid assets with a maturity of three months or less when purchased to be cash and cash equivalents.

G. Receivables

Receivables consist of fees charged for claims to the various participants. The Group believes its receivables to be fully collectable and, accordingly, no allowance for doubtful accounts is required.

H. Investments and Investment Pools

The Group records its cash in Local Agency Investment Fund (LAIF) and its other investments at fair value. Changes in Fair value are reported as non-operating revenue in the statement of revenues, expenses and changes in net position. The effect of recording investments and LAIF at fair value for the years ended June 30, 2020 and 2019 is reflected as investment income on the statement of revenues, expenses and change in net position.

Fair value of investments and LAIF has been determined by the sponsoring government based on quoted market prices. The Group's investment in LAIF has been valued based on the relative fair value of the entire external pool to the external pool's respective amortized cost.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Capital Assets

Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost. Depreciation is computed on the straight-line method with useful lives of three to five years. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to expense as incurred.

J. Accrued Vacation

The Group's vacation policy provides for the accumulation of earned vacation leave with such leave being fully vested upon completion of six consecutive months of employment. A liability for accrued vacation has been computed and recorded based on unused vacation hours at the current rate of pay.

The Group's sick leave policy provides for an unlimited accumulation of earned sick leave. Since the Group has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

K. Prefunding Deposits

The prefund deposit account was established for the dental members who are self-funded within the Group's dental program. Because these agencies do not pay for claims until they occur, their accounts are always in arrears. To accommodate for the cash flow problem created by arrear payments, all self-insured dental members within the dental program are required to deposit a dollar amount equal to one and half months of initial premiums with the Group. Should this agency wish to withdraw from the Group's dental program, this deposit can be used to fund final claims or be refunded to the member Group.

L. Provision for Unpaid Claims and Claim Adjustments Expenses

The Group's policy is to establish a provision for unpaid claims and claim adjustment expenses (claim reserves and IBNR) based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of salvage, subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. The Group increases the liability for allocated and unallocated claims adjustments expenses. Because actual claims costs depend on such complex factors as inflation, changes in doctrine of legal liability and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount, particularly for coverage such as general liability. Unpaid claims and claim adjustment expenses are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the period in which they are made. The current portion of unpaid claims is based on current year payments and known claim information at the end of the period.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The JPA has two items that qualify for reporting in this category. The first item is the deferred outflow related to pensions. This amount is equal to employer contributions made after the measurement date of the net pension liability. The second item is a deferred outflow related to pensions for the changes in proportion and differences between employer contributions and the proportionate share of contributions. This amount is amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the Plans determined as of June 30, 2017 (the beginning of the measurement period ended June 30, 2018).

In addition to liabilities, the Statement of Net Position and the governmental funds Balance Sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The City has one item that qualifies for reporting in this category. That item is a deferred inflow related to pensions resulting from the difference in projected and actual earnings on investments of the pension plan fiduciary net position. This amount is amortized over five years.

N. Excess Insurance

The Group enters into reinsurance agreements whereby it cedes various amounts of risk to other insurance companies. The Group and its member entities retain the first \$25,000 of liability and property risk per incident. Effective July 1, 2009, the Group joined Protected Insurance Program for Schools and Colleges (PIPS) for Workers Compensation. Prior to July 1, 2009, the Group's self-insured retention for property, liability and workers compensation was \$100,000, \$150,000 and \$250,000, respectively. The Group does not report excess insured risk as a liability unless it is probable that a risk will not be covered by excess insurers. Settlements have not exceeded insurance coverage in each of the past three years.

O. Revenue Recognition

Contributions are recognized as revenue when earned based upon the coverage period of the related insurance. To the extent that allocated losses exceed contributions previously paid, interest and other income, the Group can assess its members' additional contributions. Supplemental assessments are recognized as income in the period assessed. Operating revenues and expenses include all activities necessary to achieve the objectives of the Group. Non-operating revenues and expenses include investment income.

P. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from these estimates.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. Income Taxes

The Group is exempt from Federal income taxes under Internal Revenue Code Section 115, which excludes income derived from the exercise of any essential governmental function and accruing to a state political subdivision. As a public agency, the Group is also exempt from California state taxes. Accordingly, no provision for Federal or state income taxes has been made in the accompanying financial statements.

NOTE 2 – CASH AND CASH EQUIVALENTS

Cash, cash equivalents and investments as of June 30, 2020 and 2019 are reported at fair value and consisted of the following:

	2020	2019
Cash and cash equivalents		
Cash in bank	\$ 8,729,616	\$ 5,633,619
Cash in county treasury	20,004,840	23,819,540
Local agency investment fund	3,365,205	3,287,834
Money market accounts	159,423	203,497
Total cash and cash equivalents	\$ 32,259,084	\$ 32,944,490

A. Custodial Credit Risk

This is the risk that in the event of a bank failure, the Group deposits may not be returned the Group does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2020 and 2019, the Group bank balances were not exposed to custodial credit risk.

B. Cash in County Treasury

The Group maintains substantially all of its cash in the Alameda County Treasury. The County pools these funds with those of other public agencies in the County and invests the cash. These pooled funds are carried at cost which approximates fair value.

Because the Group's deposits are maintained in a recognized pooled investment fund under the care of a third party and the Group's share of the pool does not consist of specific, identifiable investment securities owned by the Group, no disclosure of the individual deposits and investments or related custodial credit risk classifications is required.

In accordance with authorized investment laws, the Alameda County Treasurer may invest in derivative securities to enhance the yield on the portfolio. However, at June 30, 2020, the Alameda County Treasurer has represented that the Treasurer's pooled investment fund contained no derivatives or other investments with similar risk profiles.

C. Local Agency Investment Fund

Alameda County Schools Insurance Group places certain funds with the State of California's Local Agency Fund (LAIF). The Group is a voluntary participant in LAIF, which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California and the Pooled Money Investment Board. The State Treasurer's Office pools these funds with those of other governmental agencies in the State and invests the cash. The fair value of the Group's investment in this pool is reported in the accompanying financial statements based upon the Group's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The monies held in the pooled investment funds are not subject to categorization by risk category. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Funds are accessible and transferable to the master account within twenty-four hour notice. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, and floating rate securities issued by Federal agencies, government-sponsored enterprises and corporations. As of June 30, 2020, this fund was yielding approximately 2.57% interest annually.

LAIF is administered by the State Treasurer and is audited annually by the Pooled Money Investment Board and the State Controller's Office. Copies of this audit may be obtained from the State Treasurer's Office: 915 Capitol Mall; Sacramento, California 95814. The Pooled Money Investment Board has established policies, goals, and objectives to make certain that their goal of safety, liquidity and yield are not jeopardized.

NOTE 3 – INVESTMENTS

At June 30, 2020 and 2019, investments are reported at fair value and consisted of the following:

	2020	2019
Investments		
Corporate Bonds	\$ 6,533,044	\$ 4,697,203
Federal Agency Bonds and Notes	4,852,865	4,701,040

NOTE 3 – INVESTMENTS (continued)

A. Investment Credit Risk:

The Group's investment policy limits investment maturities to 5 years as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of June 30, 2020, 100% of the portfolio was invested in "A-"rated obligations, or better. All credit ratings presented in this paragraph are Standard & Poor's ratings.

B. Concentration of Investment Credit Risk

At June 30, 2020, the Group has the following investments that represent more than five percent of the Group's net investments:

Corporate Bonds 29%
U.S. Treasury Notes 49%
FNMA 11%
FHLMC 11%

C. Fair Value

The Group categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, either directly or indirectly.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the Group's own data. The Group should adjust that data if reasonable available information indicates that other market participants would use different data or certain circumstances specific to the Group are not available to other market participants.

Uncategorized - Investments in the Alameda County Treasury Investment Pool are not measured using the input levels above because the Group's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The Group's fair value measurements at June 30, 2020 were as follows:

	Quoted Prices		
	Level 1	Uncategorized	Total
Cash in county treasury	\$ -	\$ 20,004,840	\$ 20,004,840

NOTE 8 – PENSION PLANS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Classified employees are members of the California Public Employees' Retirement System (CalPERS). The Agency reported its proportionate share of the net pension liabilities, pension expense, deferred outflow of resources, and deferred inflow of resources for each of the above plans as follows:

	Net pension liability	Deferred outflows related to pensions	Deferred inflows related to pensions	Pension expense
PERS Pension	\$ 734,426	\$ 146,854	\$ 87,683	\$ 334,365
Total	\$ 734,426	\$ 146,854	\$ 87,683	\$ 334,365

California Public Employees' Retirement System (CalPERS)

Plan Description

The Agency contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811.

Benefits Provided

The benefits for the defined benefit plan are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years of credited service.

Contributions

Active plan members who entered into the plan prior to January 1, 2013, are required to contribute 7.0% of their salary. The California Public Employees' Pension Reform Act (PEPRA) specifies that new members entering into the plan on or after January 1, 2013, shall pay the higher of fifty percent of normal costs or 7.0% of their salary. Additionally, for new members entering the plan on or after January 1, 2013, the employer is prohibited from paying any of the employee contribution to CalPERS unless the employer payment of the member's contribution is specified in an employment agreement or collective bargaining agreement that expires after January 1, 2013.

The Agency is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2020 was 20.733% of annual payroll reduced to 19.721% pursuant to California Senate Bill 90 (SB 90). Contributions to the plan from the Agency were \$47,741 for the year ended June 30, 2020.

NOTE 8 – PENSION PLANS (continued)

California Public Employees' Retirement System (CalPERS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Agency reported a liability of \$734,426 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2018 and rolling forward the total pension liability to June 30, 2019. The Agency's proportion of the net pension liability was based on a projection of the Agency's long-term share of contributions to the pension plan relative to the projected contributions of all participating agencies in the Miscellaneous Risk Pool, actuarially determined. At June 30, 2019, the Agency's proportion was 0.018 percent, which is a decrease of 0.001 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Agency recognized pension expense of \$334,365. At June 30, 2020, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual earnings on plan investments	\$ -	\$ 12,840
Differences between expected and actual experience	51,009	3,952
Changes in assumptions	35,021	12,415
Changes in proportion and differences between Group contributions and proportionate share of contributions	13,083	58,476
Group contributions subsequent to the measurement date	47,741	-
	<u>\$ 146,854</u>	<u>\$ 87,683</u>

The \$47,741 reported as deferred outflows of resources related to pensions resulting from Group contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows of Resources	Deferred Inflows of Resources
2021	\$ 61,133	\$ 39,044
2022	20,830	2,643

Actuarial assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2018, and rolling forward the total pension liability to June 30, 2019 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Discount Rate	7.15%
Salary Increases	Varies by Entry Age and Service

CalPERS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are derived using CalPERS' membership data for all funds. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 90% of scale MP 2016.

The actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the period from 1997 to 2015.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were taken into account. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Actuarial Assumptions (continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	Assumed Asset Allocation	Real Return Years 1 – 10*	Real Return Years 11+**
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%

Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%

	<u>100.0%</u>		

*An expected inflation of 2.00% used for this period.

**An expected inflation of 2.92% used for this period.

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Schools Pool. The results of the crossover testing for the Schools Pool are presented in a detailed report that can be obtained at CalPERS' website.

Sensitivity of the Agency's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Agency's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)

NOTE 10 – JOINT POWERS AGREEMENTS

Alameda County Schools Insurance Group participates in two joint ventures under a joint powers agreement with Northern California Regional Liability Excess Fund (NCRLF) and Protected Insurance Program for Schools and Community Colleges (PIPS). The relationship between the Group and the JPAs is such that the JPAs are not component units of the Group for financial reporting purposes.

NCRLF arranges for and provides excess property and liability coverage in excess of \$25,000. PIPS arranges for and provides workers' compensation coverage from \$0 to \$200,000,000. The JPAs are each governed by a board consisting of a representative from each of their respective member Groups. Those boards control the operations of the JPAs, including selection of management and approval of operating budgets, independent of any influence by the member Groups beyond their representation on the board. Each member pays a contribution commensurate with the level of coverage requested.

Condensed financial information for NCRLF and PIPS for the fiscal year ended June 30, 2019 (most recent information available) are as follows:

	NCRLF	PIPS

Pension Plans

Pursuant to GASB Statement No. 68, Accounting and Financial Reporting for Pensions, the Group recognized deferred outflows of resources related to pensions and deferred inflows of resources related to pensions in the financial statements. Further information regarding the deferred outflows of resources and deferred inflows of resources can be found at Note 8. On June 30, 2020, total deferred outflows related to pensions was \$146,854 and total deferred inflows related to pensions was \$87,683.

NOTE 13 – CONTINGENCIES

The Group is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the Group.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEARS ENDED JUNE 30, 2020 AND 2019**

NOTE 1 – PURPOSE OF SCHEDULES

Schedule of the Group's Proportionate Share of the Net Pension Liability

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the Group's proportion (percentage) of the collective net pension liability, the Group's proportionate share (amount) of the collective net pension liability, the Group's covered-payroll, the Group's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered- payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

Schedule of Group Contributions

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the Group's statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the difference between the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the Group's covered payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution as a percentage of the Group's -covered payroll.

CLAIMS DEVELOPMENT INFORMATION
FOR THE YEARS ENDED JUNE 30, 2020 AND 2019**

The tables that follow illustrate how the Group's earned revenues (net of excess insurance) and investment income compared to related costs of loss and other expenses assumed by the Group as of the end of the previous ten years. The rows of the tables are defined as follows:

1. Total of each fiscal year's gross earned deposit and reported investments revenue, amounts of excess insurance premiums paid and reported premiums (net of reinsurance) and reported investment revenue.
2. Each fiscal year's other operating costs of the program, including overhead and loss adjustment expense not allocable to individual claims.
3. Program's gross incurred losses and allocated loss adjustment expense, losses assumed by excess insurers, and net incurred losses and loss adjustments expense (both paid and accrued) as originally reported at the end of the year in which the event that triggered coverage occurred (called fiscal year).
4. Cumulative net amounts paid as of the end of successive years for each fiscal year.
5. Latest reestimated amount of losses assumed by the excess insurers for each fiscal year.
6. Each fiscal year's net incurred losses increases or decreases as of the end of successive years. This annual reestimation results from new information received on known losses, reevaluation of existing information on known losses, and emergence of new losses not previously known.
7. Compares the latest estimated net incurred losses amount to the amount originally established (line 3) and shows whether this latest estimate of losses is greater or less than originally thought. As data for individual fiscal years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of net incurred losses currently recognized in less mature fiscal years.

The columns of the tables show data for successive fiscal years.

OTHER INDEPENDENT AUDITORS' REPORTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT
AUDITING STANDARDS**

Independent Auditors' Report

Board of Directors and Members
Alameda County Schools Insurance Group
Dublin, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Alameda County Schools Insurance Group, as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Alameda County Schools Insurance Group's basic financial statements, and have issued our report thereon dated October XX, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Alameda County Schools Insurance Group's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alameda County Schools Insurance Group's internal control. Accordingly, we do not express an opinion on the effectiveness of Alameda County Schools Insurance Group's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Alameda County Schools Insurance Group's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Distribution and Use of Report

This financial management information report (Report) prepared by Service Enhancement Technologies (SETECH), a Division of Keenan & Associates, is intended solely for internal use by the Authority's Officers, Board Members, Advisory Committee Members, and for internal decision making purposes only in regards to the Authority's insurance program.

SETECH makes no representations or warranties regarding the use of this Report for any other purpose other than for the Authority's insurance program. The official version of the Report is finalized only upon approval by the Authority's Board of Directors and/or Advisory Committee in accordance with the Authority's Agreement and Bylaws following presentation by SETECH or Keenan & Associates. We understand that members may wish to provide a copy of this Report to auditors and regulatory authorities on the conditions that:

- A) The official approved Report is used,
- B) The entire Report be distributed rather than any excerpts,
- C) All recipients be made aware that a SETECH staff member is available to answer any questions regarding the contents of the Report,
- D) The recipients recognize that the furnishing of this Report is not a substitute for their own due diligence, and they place no undue reliance on the Report or the data for purposes other than for which it was created. No creation of any duty or liability of SETECH to the recipient is owed if the Report is used for purposes other than for which it was created.

SETECH may utilize actuarial projections as an integral component of this Report, as provided by the Authority's actuary and in the case of some Benefit Groups, by a staff member of the Keenan & Associates Technical Department. We may also rely upon financial data provided by the Authority's Treasurer, Accountant or County Office of Education. We have not audited this data and are not responsible for its accuracy. With any financial analysis, the accuracy and relevance of the conclusions as well as the reasonableness of the recommendations depend upon the accuracy and relevance of the underlying data. Financial information provided in this Report is subject to an annual independent financial audit.

SETECH strives to maintain the strictest confidentiality of any information for our clients. The pages of this Report indicate that the information contained in the Report is for "Client Confidential Use Only." This indicates that SETECH will only disclose information contained in these Reports to our intended clients, their members or their contracted parties.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: 2020/2021 First Quarter Financials

Enclosed are the 2020/2021 First Quarter financial statements for review. All beginning balances have been adjusted to the year end totals. ACSIG is progressing in alignment with its budget. The majority of the funds are experiencing an improvement in their financial positions. This will allow the Executive Committee and Board to explore program changes in the future.

A representative from SETECH will review the financial statements with the Executive Committee. The Executive Committee will be asked to recommend approval to the full Board.

ALAMEDA COUNTY SCHOOLS INSURANCE GROUP

TREASURER'S REPORT

AS OF SEPTEMBER 30, 2020 AND
FOR THE THREE MONTHS THEN ENDED

As mandated by Section 53646 of the California Government Code, Alameda County Schools Insurance Group is required to disclose that it is able to meet its pool's expenditure requirements for the next six months and is in complete compliance with the current Investment Policy as of the date of this report.

Distribution and Use of Report

This financial management information report (Report) prepared by Service Enhancement Technologies (SETECH), a Division of Keenan & Associates, is intended solely for internal use by the Authority's Officers, Board Members, Advisory Committee Members, and for internal decision making purposes only in regards to the Authority's insurance program.

SETECH makes no representations or warranties regarding the use of this Report for any other purpose other than for the Authority's insurance program. The official version of the Report is finalized only upon approval by the Authority's Board of Directors and/or Advisory Committee in accordance with the Authority's Agreement and Bylaws following presentation by SETECH or Keenan & Associates. We understand that members may wish to provide a copy of this Report to auditors and regulatory authorities on the conditions that:

- A) The official approved Report is used,
- B) The entire Report be distributed rather than any excerpts,
- C) All recipients be made aware that a SETECH staff member is available to answer any questions regarding the contents of the Report,
- D) The recipients recognize that the furnishing of this Report is not a substitute for their own due diligence, and they place no undue reliance on the Report or the data for purposes other than for which it was created. No creation of any duty or liability of SETECH to the recipient is owed if the Report is used for purposes other than for which it was created.

SETECH may utilize actuarial projections as an integral component of this Report, as provided by the Authority's actuary and in the case of some Benefit Groups, by a staff member of the Keenan & Associates Technical Department. We may also rely upon financial data provided by the Authority's Treasurer, Accountant or County Office of Education. We have not audited this data and are not responsible for its accuracy. With any financial analysis, the accuracy and relevance of the conclusions as well as the reasonableness of the recommendations depend upon the accuracy and relevance of the underlying data. Financial information provided in this Report is subject to an annual independent financial audit.

SETECH strives to maintain the strictest confidentiality of any information for our clients. The pages of this Report indicate that the information contained in the Report is for "Client Confidential Use Only." This indicates that SETECH will only disclose information contained in these Reports to our intended clients, their members or their contracted parties.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: 2019/2020 Fourth Quarter Investment Report

In an effort to improve ACSIG's interest earnings, the Executive Committee amended its investment policy and selected Morgan Stanley Smith Barney as its investment advisor effective July 1, 2010. Although returns have been small, the fund is still gaining interest for ACSIG programs.

Enclosed is ACSIG's fourth quarter investment report. Cary Allison from Morgan Stanley Wealth Management will be in attendance to address this item and outline the current investment strategy. The Executive Committee will be asked to approve a recommendation to the full Board.

DISCLOSURES

Explanatory Notes and Disclosures: This document is designed to assist you and your Financial Advisor in understanding portfolio positions, composition and subsets thereof. It is designed solely for your individual use, is for informational purposes only and is not intended as an offer or solicitation with respect to the purchase or sale of any security. Do not take action relying on this information without confirming its accuracy and completeness. Please read carefully all accompanying notes and disclosures provided in this Document.

For convenience purposes, your Financial Advisor may have assigned a designated name for this Document. The list of the accounts covered in this document is noted herein and may not include all of your accounts with us or external custodians. Furthermore, the information included in this document may not include all asset classes/securities/liabilities held by you at the firm or external custodians. Please review this document carefully and discuss any questions you may have with your Financial Advisor. If you do not understand an entry, suspect an error, or want more details on current values or other information, contact your Financial Advisor. This document is based upon your Morgan Stanley account holdings and may include other holdings/information that you or a third party provided about assets custodied elsewhere. Morgan Stanley will not verify any other holdings/information. If any information reflects assets held away from Morgan Stanley that will be indicated. The information contained in this document is subject to, and does not supersede the confirmations and account statements you receive from us. Values shown in your official account statement may differ from the values shown in this document due to, among other things, different reporting methods, delays, market conditions and interruptions. If there are discrepancies between your official account statement and this document, rely on your official account statement.

The information in this document is approximate and subject to updating, correction and other changes. We are not obligated to notify you if information changes. Although the statements of fact and data in this document have been obtained from, and are based upon sources that we believe to be reliable, we do not guarantee their accuracy, or timeliness, and any such information may be incomplete or condensed. Percentage values shown in this document are subject to rounding, which may impact total values. The values of securities and other investments not actively traded may be estimated or may not be available.

This information is provided for informational purposes only and should not be used for tax preparation. The information reported on your Form(s) 1099 supersedes the information provided in this report and should be exclusively relied upon for tax preparation. Morgan Stanley, its affiliates and its employees are not in the business of providing tax or legal advice. Clients should seek advice based on their particular circumstances from an independent tax and legal advisor. Morgan Stanley Smith Barney LLC is a registered Broker/Dealer, Member SIPC, and not a bank. Where appropriate, Morgan Stanley Smith Barney LLC has entered into arrangements with banks and other third parties to assist in offering certain banking related products and services.

Investment, insurance and annuity products offered through Morgan Stanley Smith Barney LLC are: NOT FDIC INSURED | MAY LOSE VALUE | NOT BANK GUARANTEED | NOT A BANK DEPOSIT | NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY

Additional information about your Floating Rate Notes: For floating rate securities, the estimated accrued interest and estimated annual income are based on the current floating coupon rate and may not reflect historic rates within the accrual period.

Important Information About Auction Rate Securities: For certain Auction Rate Securities there is no or limited liquidity. Therefore, the price(s) for these Auction Rate Securities are indicated as not available by a dash "-". There can be no assurance that a successful auction will occur or that a secondary market exists or will develop for a particular security.

Important Pricing Information: Prices of securities not actively traded may not be available, and are indicated by a dash "-".

Asset Classification: We classify assets based on general characteristics such as: income generation, underlying capital structure, or exposure to certain market sectors. As many assets contain characteristics of more than one asset class, allocations may be under or over inclusive. These classifications do not constitute a recommendation and may differ from the classification of instruments for regulatory or tax purposes. In addition, the Other asset class contains securities that are not included in the various asset class classifications. This can include, but is not limited to, non-traditional investments such as some Equity Unit Trusts, Index Options and Structured Investments issued outside of Morgan Stanley. Additionally, investments for which we are unable to procure market data to properly classify them will appear in the Other category.

Money Market Fund: You could lose money in Money Market Funds. Although MMFs classified as government funds (i.e., MMFs that invest 99.5% of total assets in cash and/or securities backed by the U.S. government) and retail funds (i.e., MMFs open to natural person investors only) seek to preserve value at \$1.00 per share, they cannot guarantee they will do so. The price of other MMFs will fluctuate and when you sell shares they may be worth more or less than originally paid. MMFs may impose a fee upon sale or temporarily suspend sales if liquidity falls below required minimums. During suspensions, shares would not be available for purchases, withdrawals, check writing or ATM debits. A MMF investment is not insured or guaranteed by the Federal Deposit Insurance Corporation or other government agency.

Performance: Performance results are annualized for time periods greater than one year and include all cash and cash equivalents, realized and unrealized capital gains and losses, dividends, interest and income. Depending on the opening or closing date of the account or position, the performance referenced may be for a portion of the time period identified. The investment results depicted herein represent historical performance. As a result of recent market activity, current performance may vary from the figures shown. Please contact your Financial Advisor for up-to-date performance information. Past performance is not a guarantee of future results. Quotations of performance appearing in this report may include performance experienced in legacy accounts which have been closed and purged, and as

such are not included on the Accounts Included in This Report page.

Market values used for performance calculation do not include Performance Ineligible Assets and thus may differ from asset allocation market values. Common examples of Performance Ineligible Assets include life insurance and annuities as well as Manually Added and External accounts, assets and liabilities.

Unless otherwise indicated, performance is a composite calculation of the entire portfolio and may include brokerage and investment advisory accounts as well as assets for different accounts included in this report. The accounts included in the composite may have (or have had) different investment objectives and strategies, been subject to different restrictions, and incurred different types of fees, markups, commissions and other charges. Accordingly, performance results may blend the performance of assets and strategies that may not have been available in all of the accounts at all times during the reporting period. In addition, accounts in the composite may have changed from brokerage to advisory or vice versa. Accounts may also have moved from one advisory program to another (including from a discretionary program to a non-discretionary program).

For Morgan Stanley Smith Barney LLC accounts, performance information may cover the full history of the account(s) or just the performance of an account(s) since the inception of the current program(s). Performance results on individual accounts will vary and may differ from the composite returns. Your Financial Advisor can provide you with individual account portfolio composition and performance information. For investment advisory accounts, please see the Morgan Stanley Smith Barney LLC Form ADV Part 2 or applicable disclosure brochure and any applicable brokerage commission and/or fee schedule for a full disclosure of fees and expenses. Your Financial Advisor will provide those documents to you upon request. For brokerage accounts, please speak to your Financial Advisor for more information on commissions and other account fees and expenses.

Performance inception date does not necessarily correspond to the account opening date. Where multiple accounts are included in performance calculations, the inception date is the oldest performance inception. Performance data may not be available for all periods as some accounts included in performance may have more recent performance inception dates. Consequently, the actual performance for a group of accounts may differ from reported performance. Please ask your Financial Advisor for the performance inception date for each account.

Indices: Benchmark indices and blends included in this material are for informational purposes only, are provided solely as a comparison tool and may not reflect the underlying composition and/or investment objective(s) associated with the account(s). In some circumstances, the benchmark index may not be an appropriate benchmark for use with the specific composite portfolio. For instance, an index may not take into consideration certain changes that may have occurred in the portfolio since the inception of the account(s), (e.g., changes from a brokerage to an advisory account or from one advisory program to another, asset class changes, or index changes for individual managers). The volatility of the index used for comparison may be materially different from that of the performance shown. Indices are unmanaged and not available for direct investment. Index returns do not take into account fees or other charges. Such fees and charges would reduce performance. Please see the Benchmark Definitions section of this material for additional information on the indices used for comparison.

Realized/Unrealized Gain/Loss: The gain and loss information is provided for informational purposes only, may not be complete, is not a substitute 1099 form (or any other appropriate tax form), and should not be used for tax planning or preparation. Gain and loss values are estimates and should be independently verified. We are not responsible for any gain and loss information provided by you or another financial institution. You are responsible for ensuring the accuracy of such information.

Projected 12 Month: Projected 12 Month Income is based upon cash income from interest, cash dividends, and partnership distributions. It is a hypothetical projection calculated using current yields. The projected income referenced is based upon certain market projections effective as at today's date only and can change at any time. Such projected income is hypothetical, do not reflect actual investment results, and is not a guarantee of future results. The projected income is referenced for illustrative purposes only. Morgan Stanley does not represent or guarantee that the projected income referenced will or can be attained. The actual income may be lower or higher than the projections based upon a variety of factors and assumptions. The projected income shown may under or over compensate for the impact of actual market conditions and other factors. We make no representation or warranty as to the reasonableness of the assumptions made, or that all assumptions used to construct this projected income information have been stated or fully considered. To the extent that the assumptions made do not reflect actual conditions, the illustrative value of the hypothetical projected income will decrease.

The projected income referenced may include income from Morgan Stanley & Co. and External Accounts, where data is available. Such information was obtained from third party sources which Morgan Stanley believes to be reliable. However, we make no representation or guarantee that the information is accurate or complete. You should not rely upon this information to make any investment decision. Please refer to the official account statements and performance reports you received from your custodian and/or financial institution for information about projected income in your External Accounts. The projected income referenced does not include income from assets in Manually Added External Accounts.

Bank Deposit Program: Under the Bank Deposit Program, cash balances held in account(s) at Morgan Stanley Smith Barney LLC are automatically deposited into an interest bearing FDIC-insured deposit account(s), at Morgan Stanley Bank, N.A. and/or Morgan Stanley Private Bank, National Association, each a national bank, Member FDIC, and an affiliate of Morgan Stanley Smith Barney LLC. Detailed information on federal deposit insurance coverage is available on the FDIC's website (<https://www.fdic.gov/deposit/deposits/>). Cash balances generally include the uninvested cash in a client's account(s) minus certain items such as purchase transactions due to settle within a specified time period, other charges to a client's account(s), and cash balances that are designated as collateral for a client's obligations.

SMA/WRAP Fee: Overlay Managers or Executing Sub-Managers ("managers") in some of Morgan Stanley's Separately Managed Account ("SMA") programs may affect transactions through broker-

dealers other than Morgan Stanley or our affiliates. If your manager trades with another firm, you may be assessed costs by the other firm in addition to Morgan Stanley's fees. Those costs will be included in the net price of the security, not separately reported on trade confirmations or account statements. Certain managers have historically directed most, if not all, of their trades to outside firms. Information provided by managers concerning trade execution away from Morgan Stanley is summarized at: www.morganstanley.com/wealth/investmentsolutions/pdfs/adv/sotresponse.pdf. For more information on trading and costs, please refer to the ADV Brochure for your program(s), available at www.morganstanley.com/ADV, or contact your Financial Advisor/Private Wealth Advisor.

GENERAL DEFINITIONS

APY: The Annual Percentage Yield ("APY") for deposits represents the applicable rate in effect for your deposits at the period ending date. This APY may be different than the APY that was in effect during the statement period. For current Bank Deposit or Money Market Fund yields, go to <http://www.morganstanley.com/wealth-investmentstrategies/ratemonitor>

Accrued Interest: The interest earned but not yet received at both the beginning and end of each reporting period.

Adjusted Cost: Adjusted Cost generally reflects the security's original cost adjusted as required by applicable tax rules, including the accrual of discount or premium. Adjusted cost figures are provided for reference purposes only. Although we make every effort to adjust the cost basis for securities' capital changes, we do not adjust the cost basis for all events and may not reflect all of the basis adjustments required to make for tax reporting purposes. Please review with your tax advisor on what is the best method for allocating cost basis for your account.

Annualized Standard Deviation: A statistical calculation that measures the volatility of returns over time; the larger the standard deviation, the greater the volatility.

Call Date: The date on which a bond or preferred stock can be redeemed by the issuer before maturity.

Call Price: The price at which a bond or a preferred stock can be redeemed by the issuer before maturity.

Coupon Rate: The interest rate stated on a bond when it is issued. The coupon is typically paid semiannually.

Current Yield: The indicated Estimated Annual Income divided by the Market Value/Current Cost.

Dollar-Weighted Return (Internal Rate of Return): A return calculation that measures the actual performance of a portfolio over the reporting period. Since dollar weighted returns include the impact of client contributions and withdrawals, they should not be compared to market indices or used to evaluate the performance of a manager, but can be used to evaluate progress toward investment goals.

Global Investment Manager Analysis (GIMA): Global Investment Manager Analysis (GIMA) reviews certain investment products in various advisory programs. For these programs, a GIMA status will apply:

Focus List (FL): Investment products on the Focus List have been subject to an in-depth review and possess GIMA's highest level of confidence.

Approved List (AL): Investment products on the Approved List have typically been subject to a less rigorous review process and have been approved for recommendation to investors.

Not Approved List (NL): Investment products that were previously on the Focus List or Approved List but are no longer on either of those lists. GIMA no longer covers these products. For more information, please ask your Financial Advisor for the applicable Morgan Stanley ADV brochure.

Gross Accumulated Value (\$): Gross Accumulated Value is the most current market value provided by carriers of the Annuity or Life insurance product.

Investment Earnings: A combination of the income received and total portfolio value increase or decrease, excluding net contributions and withdrawals, over the reporting period.

Moody's Investor Service and Standard & Poor's Credit Ratings: The credit ratings from Moody's Investors Service and Standard & Poor's may be shown for certain securities. All credit ratings represent the "opinions" of the provider and are not representations or guarantees of performance. Your Financial Advisor will be pleased to provide you with further information or assistance in interpreting these credit ratings.

Morgan Stanley Research Ratings: Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated, or Underweight (see definition below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's view, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the ratings alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Overweight (OVWEIGHT): The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Equal-weight (EQWEIGHT): The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Underweight (UNWEIGHT): The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Not-Rated (NR): Currently, the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Not Available (NAV): Indicates that the ratings for this company are not available because of a Morgan Stanley policy.

Discontinued Coverage (DC)

Net Contributions/Withdrawals: The net value of cash and securities contributed to or withdrawn from the account(s) during the reporting period. Net contributions and withdrawals may include advisory fees for advisory accounts.

Net Invested Premium(\$): Net Invested Premium is the total amount invested minus the total amount withdrawn. The total amount invested includes the initial investment and any future contributions.

Net of Fees: Performance results depicted as "net" of fees shall mean that any wrap fee, investment management fees, trade commissions, and/or other account fees have been deducted. Any other fees or expenses associated with the account, such as third party custodian fees, may not have been deducted. Please see the Morgan Stanley Smith Barney LLC Form ADV Part 2 Brochure for advisory accounts and/or any applicable brokerage account trade confirmation statements for a full disclosure of the applicable charges, fees and expenses. Your Financial Advisor will provide those documents to you upon request.

Not Rated: Not Rated is assigned to an unrated issuer, obligation and/or program and can also include mutual funds and ETFs.

Performance ineligible assets: Performance returns are not calculated for certain assets because accurate valuations and transactions for these assets are not processed or maintained by Morgan Stanley Smith Barney LLC. Common examples include life insurance and annuities as well as Manually Added and External accounts, assets and liabilities.

Time-Weighted Return: A return calculation that measures the investment performance of a portfolio over the reporting period. Time weighted returns do not include the impact of client contributions and withdrawals and therefore, may not reflect the actual rate of return the client received. Time weighted returns isolate investment actions and can be compared to benchmarks and used to evaluate the performance of a manager.

Total Value: "Total Value" represents the Market Value of the portfolio or Asset Class referenced and includes the accrual of interest and dividends. Total Value in the Asset Allocation view prior to January 2014 does not reflect the accrual of interest and dividends. Total Value for Morgan Stanley & Co. and External accounts also does not include accrued interest and dividends.

BENCHMARK DEFINITIONS

BC Gov 1-3 Yr: The Barclays 1-3 Year Government Bond Index is composed of government bonds with maturities between one and three years.

BC Gov/Cr 1-5 yr: The Government/Credit Index includes securities in the Government and Credit Indices. The Government Index includes treasuries (i.e., public obligations of the U.S. Treasury that have remaining maturities of more than one year) and agencies (i.e., publicly issued debt of U.S. Government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. Government). The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements. This index is the 1-5 Yr component of the U.S. Government/Credit index.

DISCLOSURES

Explanatory Notes and Disclosures: This document is designed to assist you and your Financial Advisor in understanding portfolio positions, composition and subsets thereof. It is designed solely for your individual use, is for informational purposes only and is not intended as an offer or solicitation with respect to the purchase or sale of any security. Do not take action relying on this information without confirming its accuracy and completeness. Please read carefully all accompanying notes and disclosures provided in this Document.

For convenience purposes, your Financial Advisor may have assigned a designated name for this Document. The list of the accounts covered in this document is noted herein and may not include all of your accounts with us or external custodians. Furthermore, the information included in this document may not include all asset classes/securities/liabilities held by you at the firm or external custodians. Please review this document carefully and discuss any questions you may have with your Financial Advisor. If you do not understand an entry, suspect an error, or want more details on current values or other information, contact your Financial Advisor. This document is based upon your Morgan Stanley account holdings and may include other holdings/information that you or a third party provided about assets custodied elsewhere. Morgan Stanley will not verify any other holdings/information. If any information reflects assets held away from Morgan Stanley that will be indicated. The information contained in this document is subject to, and does not supersede the confirmations and account statements you receive from us. Values shown in your official account statement may differ from the values shown in this document due to, among other things, different reporting methods, delays, market conditions and interruptions. If there are discrepancies between your official account statement and this document, rely on your official account statement.

The information in this document is approximate and subject to updating, correction and other changes. We are not obligated to notify you if information changes. Although the statements of fact and data in this document have been obtained from, and are based upon sources that we believe to be reliable, we do not guarantee their accuracy, or timeliness, and any such information may be incomplete or condensed. Percentage values shown in this document are subject to rounding, which may impact total values. The values of securities and other investments not actively traded may be estimated or may not be available.

This information is provided for informational purposes only and should not be used for tax preparation. The information reported on your Form(s) 1099 supersedes the information provided in this report and should be exclusively relied upon for tax preparation. Morgan Stanley, its affiliates and its employees are not in the business of providing tax or legal advice. Clients should seek advice based on their particular circumstances from an independent tax and legal advisor. Morgan Stanley Smith Barney LLC is a registered Broker/Dealer, Member SIPC, and not a bank. Where appropriate, Morgan Stanley Smith Barney LLC has entered into arrangements with banks and other third parties to assist in offering certain banking related products and services.

Investment, insurance and annuity products offered through Morgan Stanley Smith Barney LLC are: NOT FDIC INSURED | MAY LOSE VALUE | NOT BANK GUARANTEED | NOT A BANK DEPOSIT | NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY

Additional information about your Floating Rate Notes: For floating rate securities, the estimated accrued interest and estimated annual income are based on the current floating coupon rate and may not reflect historic rates within the accrual period.

Important Information About Auction Rate Securities: For certain Auction Rate Securities there is no or limited liquidity. Therefore, the price(s) for these Auction Rate Securities are indicated as not available by a dash "-". There can be no assurance that a successful auction will occur or that a secondary market exists or will develop for a particular security.

Important Pricing Information: Prices of securities not actively traded may not be available, and are indicated by a dash "-".

Asset Classification: We classify assets based on general characteristics such as: income generation, underlying capital structure, or exposure to certain market sectors. As many assets contain characteristics of more than one asset class, allocations may be under or over inclusive. These classifications do not constitute a recommendation and may differ from the classification of instruments for regulatory or tax purposes. In addition, the Other asset class contains securities that are not included in the various asset class classifications. This can include, but is not limited to, non-traditional investments such as some Equity Unit Trusts, Index Options and Structured Investments issued outside of Morgan Stanley. Additionally, investments for which we are unable to procure market data to properly classify them will appear in the Other category.

Money Market Fund: You could lose money in Money Market Funds. Although MMFs classified as government funds (i.e., MMFs that invest 99.5% of total assets in cash and/or securities backed by the U.S. government) and retail funds (i.e., MMFs open to natural person investors only) seek to preserve value at \$1.00 per share, they cannot guarantee they will do so. The price of other MMFs will fluctuate and when you sell shares they may be worth more or less than originally paid. MMFs may impose a fee upon sale or temporarily suspend sales if liquidity falls below required minimums. During suspensions, shares would not be available for purchases, withdrawals, check writing or ATM debits. A MMF investment is not insured or guaranteed by the Federal Deposit Insurance Corporation or other government agency.

Performance: Performance results are annualized for time periods greater than one year and include all cash and cash equivalents, realized and unrealized capital gains and losses, dividends, interest and income. Depending on the opening or closing date of the account or position, the performance referenced may be for a portion of the time period identified. The investment results depicted herein represent historical performance. As a result of recent market activity, current performance may vary from the figures shown. Please contact your Financial Advisor for up-to-date performance information. Past performance is not a guarantee of future results. Quotations of performance appearing in this report may include performance experienced in legacy accounts which have been closed and purged, and as

such are not included on the Accounts Included in This Report page.

Market values used for performance calculation do not include Performance Ineligible Assets and thus may differ from asset allocation market values. Common examples of Performance Ineligible Assets include life insurance and annuities as well as Manually Added and External accounts, assets and liabilities.

Unless otherwise indicated, performance is a composite calculation of the entire portfolio and may include brokerage and investment advisory accounts as well as assets for different accounts included in this report. The accounts included in the composite may have (or have had) different investment objectives and strategies, been subject to different restrictions, and incurred different types of fees, markups, commissions and other charges. Accordingly, performance results may blend the performance of assets and strategies that may not have been available in all of the accounts at all times during the reporting period. In addition, accounts in the composite may have changed from brokerage to advisory or vice versa. Accounts may also have moved from one advisory program to another (including from a discretionary program to a non-discretionary program).

For Morgan Stanley Smith Barney LLC accounts, performance information may cover the full history of the account(s) or just the performance of an account(s) since the inception of the current program(s). Performance results on individual accounts will vary and may differ from the composite returns. Your Financial Advisor can provide you with individual account portfolio composition and performance information. For investment advisory accounts, please see the Morgan Stanley Smith Barney LLC Form ADV Part 2 or applicable disclosure brochure and any applicable brokerage commission and/or fee schedule for a full disclosure of fees and expenses. Your Financial Advisor will provide those documents to you upon request. For brokerage accounts, please speak to your Financial Advisor for more information on commissions and other account fees and expenses.

Performance inception date does not necessarily correspond to the account opening date. Where multiple accounts are included in performance calculations, the inception date is the oldest performance inception. Performance data may not be available for all periods as some accounts included in performance may have more recent performance inception dates. Consequently, the actual performance for a group of accounts may differ from reported performance. Please ask your Financial Advisor for the performance inception date for each account.

Indices: Benchmark indices and blends included in this material are for informational purposes only, are provided solely as a comparison tool and may not reflect the underlying composition and/or investment objective(s) associated with the account(s). In some circumstances, the benchmark index may not be an appropriate benchmark for use with the specific composite portfolio. For instance, an index may not take into consideration certain changes that may have occurred in the portfolio since the inception of the account(s), (e.g., changes from a brokerage to an advisory account or from one advisory program to another, asset class changes, or index changes for individual managers). The volatility of the index used for comparison may be materially different from that of the performance shown. Indices are unmanaged and not available for direct investment. Index returns do not take into account fees or other charges. Such fees and charges would reduce performance. Please see the Benchmark Definitions section of this material for additional information on the indices used for comparison.

Realized/Unrealized Gain/Loss: The gain and loss information is provided for informational purposes only, may not be complete, is not a substitute 1099 form (or any other appropriate tax form), and should not be used for tax planning or preparation. Gain and loss values are estimates and should be independently verified. We are not responsible for any gain and loss information provided by you or another financial institution. You are responsible for ensuring the accuracy of such information.

Projected 12 Month: Projected 12 Month Income is based upon cash income from interest, cash dividends, and partnership distributions. It is a hypothetical projection calculated using current yields. The projected income referenced is based upon certain market projections effective as at today's date only and can change at any time. Such projected income is hypothetical, do not reflect actual investment results, and is not a guarantee of future results. The projected income is referenced for illustrative purposes only. Morgan Stanley does not represent or guarantee that the projected income referenced will or can be attained. The actual income may be lower or higher than the projections based upon a variety of factors and assumptions. The projected income shown may under or over compensate for the impact of actual market conditions and other factors. We make no representation or warranty as to the reasonableness of the assumptions made, or that all assumptions used to construct this projected income information have been stated or fully considered. To the extent that the assumptions made do not reflect actual conditions, the illustrative value of the hypothetical projected income will decrease.

The projected income referenced may include income from Morgan Stanley & Co. and External Accounts, where data is available. Such information was obtained from third party sources which Morgan Stanley believes to be reliable. However, we make no representation or guarantee that the information is accurate or complete. You should not rely upon this information to make any investment decision. Please refer to the official account statements and performance reports you received from your custodian and/or financial institution for information about projected income in your External Accounts. The projected income referenced does not include income from assets in Manually Added External Accounts.

Bank Deposit Program: Under the Bank Deposit Program, cash balances held in account(s) at Morgan Stanley Smith Barney LLC are automatically deposited into an interest bearing FDIC-insured deposit account(s), at Morgan Stanley Bank, N.A. and/or Morgan Stanley Private Bank, National Association, each a national bank, Member FDIC, and an affiliate of Morgan Stanley Smith Barney LLC. Detailed information on federal deposit insurance coverage is available on the FDIC's website (<https://www.fdic.gov/deposit/deposits/>). Cash balances generally include the uninvested cash in a client's account(s) minus certain items such as purchase transactions due to settle within a specified time period, other charges to a client's account(s), and cash balances that are designated as collateral for a client's obligations.

SMA/WRAP Fee: Overlay Managers or Executing Sub-Managers ("managers") in some of Morgan Stanley's Separately Managed Account ("SMA") programs may affect transactions through broker-

dealers other than Morgan Stanley or our affiliates. If your manager trades with another firm, you may be assessed costs by the other firm in addition to Morgan Stanley's fees. Those costs will be included in the net price of the security, not separately reported on trade confirmations or account statements. Certain managers have historically directed most, if not all, of their trades to outside firms. Information provided by managers concerning trade execution away from Morgan Stanley is summarized at: www.morganstanley.com/wealth/investmentsolutions/pdfs/adv/sotresponse.pdf. For more information on trading and costs, please refer to the ADV Brochure for your program(s), available at www.morganstanley.com/ADV, or contact your Financial Advisor/Private Wealth Advisor.

GENERAL DEFINITIONS

APY: The Annual Percentage Yield ("APY") for deposits represents the applicable rate in effect for your deposits at the period ending date. This APY may be different than the APY that was in effect during the statement period. For current Bank Deposit or Money Market Fund yields, go to <http://www.morganstanley.com/wealth-investmentstrategies/ratemonitor>

Accrued Interest: The interest earned but not yet received at both the beginning and end of each reporting period.

Adjusted Cost: Adjusted Cost generally reflects the security's original cost adjusted as required by applicable tax rules, including the accrual of discount or premium. Adjusted cost figures are provided for reference purposes only. Although we make every effort to adjust the cost basis for securities' capital changes, we do not adjust the cost basis for all events and may not reflect all of the basis adjustments required to make for tax reporting purposes. Please review with your tax advisor on what is the best method for allocating cost basis for your account.

Annualized Standard Deviation: A statistical calculation that measures the volatility of returns over time; the larger the standard deviation, the greater the volatility.

Call Date: The date on which a bond or preferred stock can be redeemed by the issuer before maturity.

Call Price: The price at which a bond or a preferred stock can be redeemed by the issuer before maturity.

Coupon Rate: The interest rate stated on a bond when it is issued. The coupon is typically paid semiannually.

Current Yield: The indicated Estimated Annual Income divided by the Market Value/Current Cost.

Dollar-Weighted Return (Internal Rate of Return): A return calculation that measures the actual performance of a portfolio over the reporting period. Since dollar weighted returns include the impact of client contributions and withdrawals, they should not be compared to market indices or used to evaluate the performance of a manager, but can be used to evaluate progress toward investment goals.

Global Investment Manager Analysis (GIMA): Global Investment Manager Analysis (GIMA) reviews certain investment products in various advisory programs. For these programs, a GIMA status will apply:

Focus List (FL): Investment products on the Focus List have been subject to an in-depth review and possess GIMA's highest level of confidence.

Approved List (AL): Investment products on the Approved List have typically been subject to a less rigorous review process and have been approved for recommendation to investors.

Not Approved List (NL): Investment products that were previously on the Focus List or Approved List but are no longer on either of those lists. GIMA no longer covers these products. For more information, please ask your Financial Advisor for the applicable Morgan Stanley ADV brochure.

Gross Accumulated Value (\$): Gross Accumulated Value is the most current market value provided by carriers of the Annuity or Life insurance product.

Investment Earnings: A combination of the income received and total portfolio value increase or decrease, excluding net contributions and withdrawals, over the reporting period.

Moody's Investor Service and Standard & Poor's Credit Ratings: The credit ratings from Moody's Investors Service and Standard & Poor's may be shown for certain securities. All credit ratings represent the "opinions" of the provider and are not representations or guarantees of performance. Your Financial Advisor will be pleased to provide you with further information or assistance in interpreting these credit ratings.

Morgan Stanley Research Ratings: Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated, or Underweight (see definition below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's view, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the ratings alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Overweight (OVWEIGHT): The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Equal-weight (EQWEIGHT): The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Underweight (UNWEIGHT): The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Not-Rated (NR): Currently, the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Not Available (NAV): Indicates that the ratings for this company are not available because of a Morgan Stanley policy.

Discontinued Coverage (DC)

Net Contributions/Withdrawals: The net value of cash and securities contributed to or withdrawn from the account(s) during the reporting period. Net contributions and withdrawals may include advisory fees for advisory accounts.

Net Invested Premium(\$): Net Invested Premium is the total amount invested minus the total amount withdrawn. The total amount invested includes the initial investment and any future contributions.

Net of Fees: Performance results depicted as "net" of fees shall mean that any wrap fee, investment management fees, trade commissions, and/or other account fees have been deducted. Any other fees or expenses associated with the account, such as third party custodian fees, may not have been deducted. Please see the Morgan Stanley Smith Barney LLC Form ADV Part 2 Brochure for advisory accounts and/or any applicable brokerage account trade confirmation statements for a full disclosure of the applicable charges, fees and expenses. Your Financial Advisor will provide those documents to you upon request.

Not Rated: Not Rated is assigned to an unrated issuer, obligation and/or program and can also include mutual funds and ETFs.

Performance ineligible assets: Performance returns are not calculated for certain assets because accurate valuations and transactions for these assets are not processed or maintained by Morgan Stanley Smith Barney LLC. Common examples include life insurance and annuities as well as Manually Added and External accounts, assets and liabilities.

Time-Weighted Return: A return calculation that measures the investment performance of a portfolio over the reporting period. Time weighted returns do not include the impact of client contributions and withdrawals and therefore, may not reflect the actual rate of return the client received. Time weighted returns isolate investment actions and can be compared to benchmarks and used to evaluate the performance of a manager.

Total Value: "Total Value" represents the Market Value of the portfolio or Asset Class referenced and includes the accrual of interest and dividends. Total Value in the Asset Allocation view prior to January 2014 does not reflect the accrual of interest and dividends. Total Value for Morgan Stanley & Co. and External accounts also does not include accrued interest and dividends.

BENCHMARK DEFINITIONS

BC Gov 1-3 Yr: The Barclays 1-3 Year Government Bond Index is composed of government bonds with maturities between one and three years.

BC Gov/Cr 1-5 yr: The Government/Credit Index includes securities in the Government and Credit Indices. The Government Index includes treasuries (i.e., public obligations of the U.S. Treasury that have remaining maturities of more than one year) and agencies (i.e., publicly issued debt of U.S. Government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. Government). The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements. This index is the 1-5 Yr component of the U.S. Government/Credit index.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: Dental DHMO Program

The ACSIG Dental program continues to evolve based upon membership needs and available program offerings. Prior to the 20/21 contract year, Delta Dental offered a DHMO program only directly with school districts. ACSIG could not participate as a pool. This required some members to maintain 2 contracts (one with ACSIG and one with Delta), 2 systems for administering their internal dental program and 2 separate payments each month.

ACSIG has been in discussions with Delta about this program for some time. Over the summer, Delta changed their policy to allow ACSIG to offer DHMO to its membership through the ACSIG/EDGE pool. The DHMO program would not change in its offerings, only the ability to centrally manage this program for membership. This would allow a more streamlined process for members.

Enclosed is more documentation about the program. A representative from our broker, Alliant, and the Executive Director will review this program for the Committee.

MEMORANDUM

TO: Dental Coalition Members

FROM: ACSIG/EDGE

DATE: September 10, 2020

SUBJECT: ACSIG Dental Health Management Organization (DHMO) Program

Thank you for your participation and support as a valued member in the ACSIG/EDGE Dental Program. The ACSIG/EDGE Dental Program has provided over 30 years of service to more than 250 public school districts and 125,000 employee members throughout the state of California. Currently, the ACSIG/EDGE Dental Program offers PPO Dental plans on a fixed rate or self-funded basis. ACSIG has received an increased number of inquiries from Dental Program members regarding more cost effective DHMO solutions to offer to their employees.

Effective **October 1, 2020**, ACSIG will offer the ACSIG DHMO Program option. The ACSIG DHMO Program is a fully-insured program that offers three DeltaCare USA plans (10A, 11A, or 12A) with regional rates renewing each year on October 1. New groups may join the program starting in any month and renew on October 1. Please refer to the ACSIG Dental HMO Program Administrative Guidelines for detailed information, Assumptions and Caveats. To request more information or a quote, please contact our program liaison, Cathy Huynh by email at cathy.huynh@alliant.com.

Thank you for your continued participation in the ACSIG/EDGE Dental Program.

The ACSIG Dental HMO (DHMO) Program offers three DeltaCare USA plans (10A, 11A, or 12A) with regional rates and the plans renew each year on October 1. The Program is a fully-insured program and offers only fully-insured premium rates. Quoted rates are valid for one year and will not fluctuate due to claim utilization during the plan year. All groups within the ACSIG Program will have a common renewal date of October 1 each year. The entire DHMO Program will renew together as a pool and each member in the Program will receive the same renewal rate change. Any new group joining the program will have an initial contract ranging from 1 to 12 months, starting in any month and renewing October 1.

Underwriting Assumptions and Caveats:

- Refer to the ACSIG Program Guidelines for specific ACSIG requirements.
- Rates include the ACSIG Eligibility Fee of \$0.60 per employee per month (PEPM).
- Rates are rounded for billing purposes.
- Rates are valid for non-voluntary groups only.
- Rates are not valid for in-force Delta Dental groups from another Delta Dental program who wish to transfer their DeltaCare plan to ACSIG. These groups may transfer with their existing rates plus a 10% withdrawal penalty for the first 12 months. After the initial 12 months the 10% penalty will be removed and rates will revert to the prior rates. Aggregate renewal action will apply to renewal rates.
- Rates are not valid for in-force Delta Dental groups not in an existing Delta Dental program who wish to transfer their standalone DeltaCare plan to ACSIG. These groups may transfer with their existing rates. Aggregate renewal action will apply to renewal rates.
- Groups must have a minimum of 5 primary enrollees in the member's Dental HMO program. If the minimum is not met at the time of renewal, the member's Dental HMO program may be terminated.
- Groups without a true employer-employee relationship, associations and groups with 1,000+ eligible lives do not qualify for these rates.
- ACSIG underwriting reserves the right to re-rate if upon acceptance of this proposal and finalization of open enrollment the total enrollment in the quoted ACSIG plans changes by more than 10% from what was provided in the RFP data.
- ACSIG reserves the right to non-renew a member or adjust rates if enrollment changes by more than 10% over any given year during ACSIG Dental membership.

Frequently Asked Questions

What you need to know about your DeltaCare USA plan

Getting started

1. How do I enroll in a DeltaCare USA plan?

Simply complete the enrollment process as directed by your benefits administrator. Be sure to select a primary care network dentist for yourself or your dependents, and indicate this dentist and the name of your group when you enroll.

2. How do I get started using my DeltaCare USA plan?

Once we process your enrollment, we'll mail you welcome materials that will include:

- **The name, address and phone number of your selected primary care dentist.** Simply call the dental facility to make an appointment.
Important note: In order to receive benefits under your plan, you must visit your primary care network dentist for all services. If you require treatment from a specialist, your primary care dentist will coordinate a referral for you. You can change your primary care dentist by contacting us.
- **Your Evidence/Certificate of Coverage (plan booklet).** This useful document provides a thorough description of how to use your benefits, including covered services, copayments and any limitations and exclusions of your plan.
- **An ID card.** This card is for your records only — you do not need to present it in order to receive treatment.

3. How long will it take to get an appointment with my primary care dentist?

Two to four weeks¹ is a reasonable amount of time to wait for a routine, non-urgent appointment. If you require a specific time slot, you may need to wait longer. Most DeltaCare USA dentists are in private group practices, which generally offer greater appointment availability and extended office hours.

4. How much will my dental treatments cost? How do I pay?

With your DeltaCare USA plan, some services are covered at no cost, while others have a copayment (amount you pay) for certain services. To find out how much a treatment will cost, refer to the "Description of Benefits and Copayments" in this brochure for a list of covered services and copayments. It's a good idea to bring your Evidence/Certificate of Coverage to your appointment in case you need to discuss your copayment for a service with your dentist. If you have any questions about the charges for a service, please contact Customer Service. If you receive treatment that requires a copayment, simply pay the dental facility at the time of service.

Choosing a dentist

5. How do I select my primary care dentist?

When you enroll, you must select a primary care dentist from the DeltaCare USA network. To search for a dentist, use the "Find a Dentist" tool at deltadentalins.com and select the DeltaCare USA network. If you do not select a dentist when you enroll, we will choose one for you.

6. Does everyone in my family have to choose the same primary care dentist?

No. Each family member can select his or her own primary care network dentist.²

7. Can I change my primary care dentist?

Yes. You can request to change your primary care dentist at any time. Simply visit our website and log on to your online account or contact Customer Service. Change requests received by the 21st of the month will become effective the first day of the following month.

¹ In TX, three weeks is a reasonable amount of time to wait for a routine, non-urgent appointment. In TX, there is no limit on the number of miles or on the dollar amount per emergency.

² In MA, you cannot select more than three primary care dentist facilities per family.

8. My dentist says she is a Delta Dental dentist, but she isn't listed in the DeltaCare USA directory. Can I still visit her for services?

No. Delta Dental has many networks, and participation may vary — not all Delta Dental dentists are DeltaCare USA dentists. You must visit your selected primary care network dentist to receive benefits under this plan.

9. What should I do if I need to see a specialist?

If you require specialty dental care — such as oral surgery, endodontics, periodontics or pediatric dentistry — contact your primary care dentist to request a referral. Specialty dental services not performed by your selected primary care dentist must be authorized by us. You are responsible for any applicable copayments.

General plan information

10. If I'm traveling, is emergency treatment covered under my plan?

You and your eligible dependents have out-of-area coverage for dental emergencies when you are more than 35 miles from your primary care dentist. Your out-of-area emergency benefit (typically limited to \$100 per person) is for services to relieve pain until you can return to your primary care network dentist.³ Standard plan limitations, exclusions and copayments may apply.

11. Can I access my plan online?

Yes. Visit deltadentalins.com to create a free, secure online account. You can access your plan benefits and ID card, select (or change) your primary care dentist and more.

12. Does my plan cover pre-existing conditions? What about treatments that are in progress?

Treatment for pre-existing conditions (except work in progress⁴), including missing or extracted teeth, is covered under your plan. Treatment in progress includes services such as preparations for crowns or root canals, or impressions for dentures. If you started treatment before your plan's effective date, you and your prior dental carrier are responsible for any costs. Some DeltaCare USA plans may cover in-progress orthodontic treatment.

13. Does my plan cover teeth whitening?

Yes. External bleaching is a benefit under your DeltaCare USA plan. Review your plan booklet for more information and talk to your dentist about your options.

14. Does my plan cover tooth-colored fillings and crowns?

Yes. Porcelain and other tooth-colored materials are included in this plan.

15. What if I have additional questions about my plan?

Please contact us for additional support. Our Customer Service representatives can answer benefits questions as well as help you change your primary care dentist or arrange for urgent care referrals. See the back page of this brochure for our contact information.

³ In TX, there is no limit on the number of miles or on the dollar amount per emergency.

⁴ In TX, there is no exception for work in progress for covered DeltaCare USA benefits.

D9997	Dental case management - Patients with special Health Care Needs	No Cost

If services for a listed procedure are performed by the assigned Contract Dentist, the Enrollee pays the specified Copayment. Listed procedures which require a Dentist to provide Specialist Services, and are referred by the assigned Contract Dentist, must be authorized by Delta Dental. The Enrollee pays the Copayment specified for such services.

SCHEDULE B

Limitations of Benefits

1. The frequency of certain Benefits is limited. All frequency limitations are listed in *Schedule A, Description of Benefits and Copayments*.
2. If the Enrollee accepts a treatment plan from the Contract Dentist that includes any combination of more than six crowns, bridge pontics and/or bridge retainers, the Enrollee may be charged an additional \$100.00 above the listed Copayment for each of these services after the sixth unit has been provided.
3. General anesthesia and/or intravenous sedation/analgesia is limited to treatment by a contracted oral surgeon and in conjunction with an approved referral for the removal of one or more partial or full bony impactions, (Procedures D7230, D7240, and D7241).
4. Benefits provided by a pediatric Dentist are limited to children through age seven following an attempt by the assigned Contract Dentist to treat the child and upon prior authorization by Delta Dental, less applicable Copayments. Exceptions for medical conditions, regardless of age limitation, will be considered on an individual basis.
5. The cost to an Enrollee receiving orthodontic treatment whose coverage is cancelled or terminated for any reason will be based on the Contract Orthodontist's usual fee for the treatment plan. The Contract Orthodontist will prorate the amount for the number of months remaining to complete treatment. The Enrollee makes payment directly to the Contract Orthodontist as arranged.
6. Orthodontic treatment in progress is limited to new DeltaCare USA Enrollees who, at the time of their original effective date, are in active treatment started under their previous employer sponsored dental plan, as long as they continue to be eligible under the DeltaCare USA Program. Active treatment means tooth movement has begun. Enrollees are responsible for all Copayments and fees subject to the provisions of their prior dental plan. Delta Dental is financially responsible only for amounts unpaid by the prior dental plan for qualifying orthodontic cases.

Exclusions of Benefits

1. Any procedure that is not specifically listed under *Schedule A, Description of Benefits and Copayments*.
2. Any procedure that in the professional opinion of the Contract Dentist:
 - a. has poor prognosis for a successful result and reasonable longevity based on the condition of the tooth or teeth and/or surrounding structures, **or**
 - b. is inconsistent with generally accepted standards for dentistry.
3. Services solely for cosmetic purposes, with the exception of procedure D9975 (External bleaching for home application, per arch), or for conditions that are a result of hereditary or developmental defects, such as cleft palate, upper and lower jaw malformations, congenitally missing teeth and teeth that are discolored or lacking enamel, except for the treatment of newborn children with congenital defects or birth abnormalities.
4. Porcelain crowns, porcelain fused to metal, cast metal or resin with metal type crowns and fixed partial dentures (bridges) for children under 16 years of age.
5. Lost or stolen appliances including, but not limited to, full or partial dentures, space maintainers, crowns and fixed partial dentures (bridges).
6. Procedures, appliances or restoration if the purpose is to change vertical dimension, or to diagnose or treat abnormal conditions of the temporomandibular joint (TMJ).
7. Precious metal for removable appliances, metallic or permanent soft bases for complete dentures, porcelain denture teeth, precision abutments for removable partials or fixed partial dentures (overlays, implants, and appliances associated therewith) and personalization and characterization of complete and partial dentures.
8. Implant-supported dental appliances and attachments, implant placement, maintenance, removal and all other services associated with a dental implant.

9. Consultations for non-covered benefits.
10. Dental services received from any dental facility other than the assigned Contract Dentist, a preauthorized dental specialist, or a Contract Orthodontist except for *Emergency Services* as described in the Contract and/or Evidence of Coverage.
11. All related fees for admission, use, or stays in a hospital, out-patient surgery center, extended care facility, or other similar care facility.
12. Prescription drugs.
13. Dental expenses incurred in connection with any dental or orthodontic procedure started before the Enrollee's eligibility with the DeltaCare USA Program. Examples include: teeth prepared for crowns, root canals in progress, full or partial dentures for which an impression has been taken and orthodontics unless qualified for the orthodontic treatment in progress provision.
14. Lost, stolen or broken orthodontic appliances.
15. Changes in orthodontic treatment necessitated by accident of any kind.
16. Myofunctional and parafunctional appliances and/or therapies, with the exception of procedures D9944, D9945, D9946 (occlusal guard).
17. Composite or ceramic brackets, lingual adaptation of orthodontic bands and other specialized or cosmetic alternatives to standard fixed and removable orthodontic appliances.
18. Treatment or appliances that are provided by a Dentist whose practice specializes in prosthodontic services.
19. Orthodontic treatment must be provided by a licensed dentist. Self-administered orthodontics are not covered.
20. The removal of fixed orthodontic appliances for reasons other than completion of treatment is not a covered benefit.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: Dental Rate Offset/Rebate

The ACSIG Dental program continues to improve its net position. Due to the pandemic, the financial position improved significantly as more members were unable to access dentists. At the May Board meeting, there was discussion of evaluating all membership usage January 2020 – December 2020 for the fixed rate members. If usage was indeed less, ACSIG would return a portion of their premium to them. This applies only to the fixed rate membership, as self funded members benefited from the reduction in usage immediately. Currently, a one-month return of premium to fixed rate members would cost approximately \$1.5 million.

The Committee will discuss this return of premium and a possible rebate to all membership based upon the 2019/2020 financials.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: Underwriting Policy

CAJPA requires all members seeking accreditation to review their underwriting policy with their Board. We inadvertently forgot this item with our annual review in May and are bringing it to you now for review. There are no changes proposed to the policy.

The Executive Director will be reviewing the policy with the Committee. The Executive Committee will be asked to approve a recommendation to the full Board.

UNDERWRITING POLICY

Objective

Alameda County Schools Insurance Group has established underwriting criteria for the purpose of marketing to prospective members. Underwriting information is also used for rate making/premium calculation, measuring member performance, and calculating dividends or assessments based upon equity levels. Underwriting standards and guidelines are outlined in various governing documents, including the JPA agreement, By-Laws and ACSIG Policies. This underwriting Policy provides a summary and highlights much of the criteria utilized to complete the underwriting process.

Underwriting Function/Mission

Establishing underwriting criteria ensures that all ACSIG coverage programs are analyzed for risk exposures, funding requirements, dividends and assessment calculations, risk retention levels, compatibility between members and serviceability by staff. Adherence to these Board approved standards and guidelines guarantees the continued financial viability and security of ACSIG.

New Members

The guidelines for admittance of new members to ACSIG are set forth in the Joint Powers Agreement and By-Laws. Membership eligibility requires the public entity be domiciled in Alameda County, or in the general geographic area reasonably serviceable from the County. Approval by two-thirds of all members of the Board is required. Applicants accepted for membership must participate in the Liability or Workers Compensation pooled coverage programs. The applicant agrees to participate as a member for a minimum of three consecutive years.

Application Process

An applicant for membership must complete ACSIG's "risk questionnaire". It solicits specific information to assess the applicants risk exposure. Included is the following financial information:

- a. Underwriting data for the current year, including payroll, audited financial statements, budget and other financial data requested;
- b. Payrolls for the previous five years;

- c. Loss history for the previous five years;
- d. Any recent claim or actuarial studies completed for the coverage programs for which the applicant applies.

In addition, the applicant must submit to an actuarial study in the format required by ACSIG and pay an application fee as determined by the Board.

Underwriting Guidelines

Any prospective member, including existing members not participating in a program, must meet the following minimum underwriting guidelines:

- a. Have a loss rate calculated for the past three years that not exceed the average loss rate of the current members;
- b. Demonstrate a commitment to support risk management and safety programs to control or prevent claims;
- c. Accept a minimum deductible of \$25,000 if joining the liability program.

Rate Setting/Funding Requirements

The liability and Workers Compensation programs will be fully funded each year after completion of an independent actuarial study. Rates are established based upon multiple factors, including:

- Payroll exposure
- Loss rates
- Excess rates
- Administrative expense
- A margin for contingency as prescribed in ACSIG's Target Equity Policy (minimum 60% confidence level)

Although ACSIG's coverage programs are based upon risk sharing among its members, to encourage accountability for losses, premiums are adjusted after the application of an experience modification factor calculated by the actuary. In addition, the Liability program employs a retrospective premium formula that provides for the return of premium credits, or assessment of premium debits based upon the actual claim experience of both the individual members and the entire group.

Dividend/Assessment

The Joint Powers Agreement authorizes the distribution of dividends or collection of assessments based upon the financial position of each fund at the close of the fiscal year. The Board has adopted a Target Equity Policy that governs the minimum equity balances required before consideration of any dividend. The Policy also requires a program year be at least five years old before being considered for a dividend distribution.

Periodic Review

This Underwriting Policy is hereby established as set forth above, and will be periodically reviewed by the Board at least once every three years. The Board may delegate the underwriting function as outlined in this Policy to the Executive Committee, Full Board or any other committee established for the sole purpose of addressing underwriting issues.

EXECUTIVE SUMMARY

TO: ACSIG Executive Committee

FROM: Kimberly Dennis

DATE: November 6, 2020

SUBJECT: Strategic Planning Update

The Board held its most recent Strategic Planning session in December 2019. While there has been some slowing of goals due to the shelter in place, ACSIG continues to work on those items identified by the Committee.

The Executive will review the progress information with the committee to determine next steps.

December 2019 Strategic Planning

Items carried forward from 2018 Plan

1. Continuation of Shoes for Crews for Food Service Workers
2. Post Offer/Pre Placement Program

New Initiatives

1. Expand foot ware program to maintenance, operations and warehouse.
 - a. ACSIG contracted with Sketchers to provide gift cards to employees. Employees were able to use gift card at any Sketchers retail store
2. Implement EAP program. The previous plan included the exploration of the program and it was decided to fund 1 year of the program up to \$200,000 for interested members and evaluate at the end of year 1.
3. Given the positive fiscal condition of WC program, should that continue, explore possible rate reductions in the future.
4. Expand Preventative Education by Department
5. Explore alternative WC programs that are not \$1 (fully insured)
6. Communication/Participation
 - a. The group felt these two areas of improvement were connected. These issues have manifested in multiple forms including lack of participation by Board members. In an effort to keep membership better informed, the following will be explored:
 - i. ED will create a report card of each agency which summarizes how ACSIG programs can assist them and present this report card to Boards of each member agency
 - ii. Create/Participate in JPA-wide forums
 1. Safety Committees
 2. Union Chapter Meetings
 3. Classified Professional Development Days

Fremont Unified School District

2018/2019 Report Card

Utilization of Available Programs and Services

- ✓ Return to Work Program
- ✓ Company Nurse (telephonic medical triage & claims reporting)
- Post Offer Pre-Placement Evaluations
- ✓ Shoes for Crews (Child Nutrition Only)
- ✓ On-Site Safety Training
- ✓ Keenan Safe Schools Training

EXPERIENCE MODIFIER

The Experience Modifier (Ex-Mod) is your indicator to how well your district is performing against the JPA average. If your ex-mod is below 1.00 then your district is performing better than the group average. If your ex-mod is above 1.00 then your district is performing above the group average.

CLAIM FREQUENCY

As of 6/30/19

The number of actual claims for each year compared to the collective average number of claims by all member districts combined for each year.

CLAIM SEVERITY

As of 6/30/19

Average incurred cost per claim as compared to ACSIG average incurred cost per claim.

2018/2019 Claims Breakdown

Medical Only

The claim is opened only for medical treatment to the injured employee and there is usually no lost time from work. These cases are typically less expensive than indemnity claims.

Indemnity

In addition to medical treatment, the employee may lose time from work, incur permanent disability or the claim may become litigated. These cases are typically more expensive than medical only claims.

SUBJECT: 2020/2021 Service Plan

One of the excited and unique opportunities available to ACSIG and its member agencies is the existence of a Keenan Service Team. The current Service Team consists of the Account Manager, Tara Cooper-Salaiz, Loss Control Analyst, Dave Kundert, Claims Manager, Patrice Grant and Risk Management Analyst, Michael Clark and myself.

This team is assigned to ACSIG almost exclusively and works on many tasks throughout the year. For the 2020/2021 fiscal year, the Service Team developed a Service Plan to better document responsibilities and timelines.

A representative from Keenan & Associates will review the Service Plan with the Executive Committee for their information.

**2020/2021
Service Plan
Alameda County Schools Insurance Group (ACSIG)**

OVERVIEW

The purpose of this Alameda County Schools Insurance Group specific plan is to provide focus and accountability for meeting the needs identified by the JPA and Keenan. The plan lists the specific Keenan services that have been and will be provided to the JPA, who is responsible for providing the service, and to the extent possible, when the services will be provided. The plan will serve as the guide for Keenan and the JPA to best address the JPA's service needs. Keenan will schedule monthly meetings with the JPA Executive Director to review the progress of the plan, and, if necessary, modify the plan to better meet our mutual goal of providing a safe and healthful environment. The plan is a fluid document meant to serve as a guideline to deliver agreed upon services. The plan is organized to reflect the coverage's and services provided by Keenan. Our integrated approach to providing services will ensure good communication and the delivery of quality services to meet your needs. The agreed upon services will be provided under the guidance of the Account Executive, Ron Martin, and the entire service team, who include; Tara Salaiz Sr. Account Manager, Robyn Tryon Account Coordinator, Rose Meisenheimer Administrative Assistant, Michael Clark Risk Management Analyst, Dave Kundert Loss Control Consultant, Patrice Grant, Claims Manager, and Bryan Boyle, Property & Liability Claims Manager.

SUBJECT: Workers Compensation Claims History

As resources are dedicated to improve frequency and severity of injuries within ACSIG, it is important to review claims data to evaluate the effectiveness of programs. Through analysis, we can identify trends within Districts. Additionally, we can identify if there are any abnormalities between program years within Districts so resources can be targeted when necessary. The JPA is trending well.

Enclosed is the latest 3-year comparative using fiscal year data. Michael Clark, our Risk Management Analyst, will be in attendance at the November 6th meeting to review this information with the Committee. This information is for review and no action is required.

SUBJECT: EAP Update

In alignment with the December 2019 Strategic Plan, ACSIG began offering an EAP program to interested members. The current participating Districts are: ACOE, Fremont, Piedmont, Pleasanton, San Leandro, San Lorenzo and Tri-Valley ROP. Enclosed is the latest usage report from Claremont EAP. Unfortunately, implementation has been slow due to the current remote working environment and direct access to employees for program introduction. That said, those who have utilized the services have given very positive feedback.

The Executive Director will be reviewing the program with the Committee.

SUBJECT: Excess Liability Assessment

In April, SELF (Schools Excess Liability Fund) announced that they would invoice members to prefund an AB218 account in anticipation of the receipt of old, abuse/molestation claims. The amount charged would be determined by an actuary and each member District would be charged directly. I requested a detail of which members of the ACSIG program were members of SELF for which years, since the majority of those membership years predated me. I have enclosed their membership records.

Not long after issuance of April memo, SELF notified Districts that they wouldn't be sending invoices right away due to the pandemic and the drastic financial state within California due to lost revenue. October 16, 2020, they issued a new memo which indicated that invoices will be issued before the end of the calendar year and will be payable within 60 days.

Although not all membership is part of the ACSIG Property/Liability program, I wanted to alert all Districts to this fact. This topic will be discussed at the meeting.

From: Dave George, Chief Executive Officer

Date: October 16, 2020

Subject: AB 218 Revived Liability Funding Plan Update

This year has been an especially challenging one for schools with COVID-19 and it has been further complicated by the implementation of AB 218 (The California Child Victims Act). The timing, to say the least, is bad. Just as the finances of schools are being hit hard, the California legislature and the courts' decisions are stressing your costs for things that don't help you in the classroom.

At Schools Excess Liability Fund, we take pride in the motto By Schools, For Schools, and throughout the year have been working to develop a plan designed to protect our members from the unfunded mandate created by this new law. For those seeking further information about the basics of AB218 and its effect on California's schools, please refer to the attached FAQ.

In June of 2020, SELF's Board approved the AB 218 Revived Liability Funding Plan, declaring a special assessment of \$46.6 million, based on the preliminary actuarial analysis of the fiscal impact.

Utilizing our independent actuarial analysis and historic JPA Agreements and Bylaws, SELF developed per-year funding amounts calculated as a pro-rata share of your original contributions, and identified four program years for which funding will be collected: 1996/1997, 1999/2000, 2006/2007 and 2016/2017.

Per-ADA funding amounts are based on type of member (K-12 or community college) and the level at which you were purchasing coverage from SELF (either above \$1M or \$5M) in that year.

The ADA used will be the same lottery ADA you were originally invoiced for in that historical year. Non-ADA members who were billed a fixed rate in those years, will be invoiced based on the pro-rata share of that original amount. In no case will a member receive a bill for a year in which they did not participate.

To assist you in moderating the impact to your budget, the total amount due will be payable over three fiscal years. You will have the option of paying the total amount up front, for a 3% discount, or you can pay in three equal annual installments.

SELF is committed to the prudent management of this plan to address these retroactive liabilities and protect and defend our members against these ongoing, retroactive legal exposures.

Enclosed is an AB 218 Rate Sheet, detailing the rates for each of the four years to be assessed at this time, and a Frequently Asked Questions reference sheet in anticipation of billing questions you may have.

We will continue to keep you updated on the status of the AB 218 Revived Liability Funding Plan as we move further into the three-year revival window.

If you have any questions we have not addressed, please don't hesitate to contact our office, either via email at info@selfjpa.org or by telephone at (866) 453-5300.

Sincerely,

Dave George
Chief Executive Officer

FAQ's – AB 218 Revived Liability Funding Plan

Schools Excess Liability Fund is working hard to protect our school district, community college district and other educational agency members from the risks, costs and **revived liabilities** resulting from **AB 218**, which went into effect January 1, 2020.

What is AB 218?	AB 218, or the California Child Victims Act, was authored by Assembly Member Lorena Gonzalez, D-San Diego and signed into law effective January 1, 2020. AB 218 has multiple implications for CA educational agencies, it: • Opens a three-year revival period, during which a claim for childhood sexual assault can be filed from any point in the past • Provides for treble damages if a “cover up” can be proven, a cost typically excluded from commercial insurance policies and JPA memoranda of coverage • Broadens the type of misconduct it covers by changing the term “abuse” to “assault”, significantly increasing the risk exposure of educational agencies • Extends the general statute of limitations in which to file a claim going forward from age 26 to age 40 (when the revival period closes). This bill exposes educational agencies to claims for sexual assault going back decades and places them in the precarious position of having to defend against them. <i>It has created an unfunded mandate on schools.</i>
How big is the potential impact?	Initial actuarial studies of the potential impact of AB 218 projected a conservative estimated cost to CA public schools of \$560 million .
Why am I receiving this?	Your public educational agency was a member of SELF's Excess Liability Program during at least one of the prior coverage years affected. By joining SELF, members agree to pay contributions set by the SELF Board in exchange for coverage to fund liabilities. Those include liabilities retroactively imposed by law, such as the law the California Legislature enacted in this case.
When should I expect an invoice?	Invoices will be sent by the end of the calendar year 2020 and will be due within 60 days.
What is the time frame for collection?	To assist districts with the impact to your budget, the total amount due will be payable over three fiscal years . You will have the option of paying the total amount up front, for a 3% discount, or pay in three equal annual installments.
How will this be billed?	At this time, SELF is collecting these funds in the following program years: 1996/97, 1999/00, 2006/07 and 2016/17. Districts will be billed based on the historical lottery ADA that they were billed on for the original SELF coverage during those years.
What if I didn't participate in all four of those years?	You will only be billed for years your district participated in SELF.

ORIGINAL MEMO

MEMORANDUM

Schools

Liability
Fund

To: SELF Members

From: Dave George, Chief Executive Officer

Date: April 17, 2020

Subject: AB 218 Revived Liability Funding Plan

With the signing of AB 218 (the California Child Victims Act) by the Governor in the fall of 2019, SELF began to prepare for the litigation that was certain to come our way following the January 1 implementation date. While the legislature passed this bill and its author presented it as having no fiscal impact, we are writing to you now to tell you it will have an immediate fiscal impact on your 2020/21 budget. This warning was given to the legislature on many occasions by the community involved in insurance for schools, including those of us here at SELF.

This new law imposes a significant **unfunded mandate** on public educational agencies, on both a prospective and retroactive basis. **You are receiving this letter because of the retroactive element in the law and your organization's previous membership in the SELF Excess Liability Program.**

For the next three years, from January 1, 2020 through December 31, 2022, **this law allows the filing of litigation against public educational agencies for claims arising from childhood sexual assault for an event at any time in the past.** The cost of this litigation must be funded now as it is already occurring.

Formed in 1986 during a nationwide insurance crisis, SELF was largely self-insured in the early years with the majority of members attaching at \$1 million. Additionally, the SELF membership has included most every school and community college district in the State, which means our exposure to these revival claims in these older years is unparalleled by any other joint powers insurance authority serving California public schools.

Statewide, SELF is already seeing these revival claims reported. As of February 29, SELF has received 12 claims, from 12 different districts across the state, spanning 11 coverage years going back as far as 1987. The impacted years have been considered closed from a fiscal perspective for some time. In fact, SELF has returned \$70 million to the membership in rebates and rate credits for these older years and the rates the Board set in those years never contemplated the revived AB 218 SAM liabilities we now face.

SELF's JPA Agreement & Bylaws, to which you were a party during your membership, authorizes the Board to levy "special assessments" and "additional contributions" against current and former members should "...claims against or by the parties exceed the amount available for the payment of such claims".

Based on claims already filed as of February 29, exposure data and actuarial estimates, **the SELF Board approved the creation of a new program to protect both current and former members from these revived liabilities** at its March 13 meeting. The Board authorized additional funding of \$46.5 million, to be collected over a three-year period. The invoice for your entity will depend primarily on three factors:

1. The type of entity you are; e.g. K12/K8, higher ed, etc.
2. Whether you purchased coverage with us starting at \$1M or \$5M
3. The years in which you participated.

In no case would an entity receive an invoice for a year in which they did not participate. Further, we expect any funds remaining after administering these revived claims will be returned to former member districts through a "settle-up" at the end of this claims bubble.

Conscious of the timeline needed to complete your budget for next year and countless demands on educational entity finances, the Board also directed staff to share estimated per/ADA-FTES cost on the enclosed Indications Rate Sheet for budgeting purposes.

It is anticipated that invoices for the AB 218 Revived Liability Funding Plan will go out in the fall of 2020, however there will be additional communication coming your way as SELF further develops the program parameters. Final details will be presented to the Board for approval at its May meeting and communicated to the members thereafter.

We have also enclosed a Frequently Asked Questions reference sheet for the AB 218 Revived Liability Funding Plan in anticipation of questions you may have. If you have a question we have not addressed, please don't hesitate to contact our office, either via email at info@selfjpa.org or by phone at (866) 453-5300.

Sincerely,

FAQ's – AB 218 Revived Liability Funding Plan

Schools Excess Liability Fund is working hard to protect our current and former school district, community college district and other educational agency members from the risks, costs and **revived liabilities** resulting from **AB 218**. SELF has already received a number of AB 218 related claims for current and former members stretching back as far as 1987 and the SELF Board recently approved a special funding plan to raise the needed funds to protect member districts from these lawsuits.

The following is a series of our most frequent questions:

What should I know about SELF?

- SELF is a not-for-profit Joint Powers Authority (**JPA**) formed in 1986 following a nationwide insurance crisis during which public entities were unable to purchase, or afford excess liability coverage. The formation of the JPA allowed public educational agencies to join together for the purpose of **pooled risk sharing** (or “self-insuring”) for excess liability risks.
- SELF provides excess liability coverage to its members beyond the primary coverage they purchase from an underlying JPA or a commercial carrier, covering claims that exceed \$1 million or \$5 million. SELF has offered coverage limits of \$10 million per member in the early years to \$55 million per member currently.
- Excess liability coverage is designed to handle the truly catastrophic claims, such as the death of a student, traumatic brain injury or cases of sexual assault and molestation (SAM), particularly where there have been multiple victims involved.

By joining SELF and signing the JPA Agreement, current and former members agree to pay contributions set by the SELF Board in exchange for coverage. The agreement also allows the Board to require each party to the agreement to contribute additional pro-rated amounts should claims against or by the parties exceed the amount available for the payment of those claims.

What is AB 218?

AB 218, or the California Child Victims Act, was authored by Assembly Member Lorena Gonzalez, D-San Diego and signed into law effective January 1, 2020.

AB 218 has multiple implications for CA educational agencies, it:

- Opens a **three-year revival period**, during which a claim for childhood sexual assault can be filed from any point in the past
- Provides for **treble damages** if a “cover up” can be proven, a cost typically excluded from commercial insurance policies and JPA memoranda of coverage
- **Broadens the type of misconduct it covers by changing the term “abuse” to “assault”, significantly increasing the risk exposure of educational agencies**
- **Extends the general statute of limitations** in which to file a claim going forward from age 26 to age 40 (when the revival period closes).

This bill exposes educational agencies to claims for **sexual assault** going back decades and places them in the precarious position of having to defend against them. Due to the nature of these claims, there is a

very real potential for high-dollar value exposure in years that insurance coverage may be exhausted or even non-existent, and it puts those schools who receive a claim under a magnifying glass.

Why am I receiving this?

- Your public educational agency was a member of SELF's Excess Liability Program during at least one of the prior coverage years, which are affected (*revived*) by a recently filed/amended claim.
- We want inform you about AB 218 and make sure ***you can budget*** appropriately for the related ***upcoming unfunded costs***.

How big is the potential impact from AB 218?

Initial actuarial studies of the potential impact of AB 218 projected a minimum cost to CA public schools of **\$560 million**. SELF statistics, January 1 through February 29, 2020 show:

- We have received 12 claims that will likely affect the SELF excess layer of pooled coverage
- Claims filed against 12 Districts from all parts of the state
- Claims span 11 different fiscal years, as early back as 1987
- These claims represent \$46.5 million in claim reserves and expected liabilities
- More claims have come in since, and more are anticipated...

You collected our contributions. Didn't SELF plan for this?

- No, we didn't plan for AB 218; we could not have reasonably anticipated the actions of the legislature and Governor that effectively eliminate the statute of limitations and ***revive*** for three years the ***liability*** of claims from every year of our existence. AB 218 is essentially a ***new unfunded mandate*** on schools, risk pooling JPAs, and insurance companies.
- SELF is a school focused organization and does not unnecessarily retain member contributions in equity. In fact, historically speaking, the SELF Board has returned funds to members as recently as 2004. **Between 1986 and 2004, SELF returned some \$70 million to member districts through rebates and rate credits.** This was done, at the time, consistent with industry standards assuming the coverage years were closed with no remaining liabilities. As a result, SELF does not have retained member equity on these closed years to fund these newly ***revived*** claims.

What is next? When will we have to pay?

- The SELF Board approved the AB 218 Funding Plan on March 13, 2020, effective for the 2020-21 fiscal year and instructed staff to work out the details of plan implementation.
- It is expected that SELF will initially collect the funding amounts currently needed in three equal annual payments, with the first of these invoices to be mailed to current and former members in the fall of 2020.
- Per member funding amounts will vary based on attachment point (\$1M or \$5M), years of participation and member type (K-12 or higher ed). In no case will a district be charged for a year in which it did not participate.

More information will be coming your way soon but if you have any other questions, please don't hesitate to contact our office at (866) 453-5300.

AB 218 Revived Liability Funding Plan

BUDGET INDICATIONS

Schools Excess Liability Fund is working hard to protect our current and former members from the risks, costs and **revived liabilities** resulting from **AB 218**. SELF has already received a number of AB 218 claims for both current and former members; as far back as 1987. In response, the SELF Board recently approved a special funding plan to raise the needed funds to protect our members from these lawsuits.

At SELF, **we understand the many cost pressures your district faces and the timeline involved with building your budgets**. That is why we are working diligently to provide you with initial indications of the expected funding plan amounts so you can plan and budget for 2020/21. Unfortunately, none of us were able to control the passing of this new **unfunded mandate**. **Rest assured we will work to protect every district we serve to minimize the impacts of this litigation.**

The following are the AB218 Revived Liability Funding Plan indications* (per ADA) to help you budget for the invoices** that will go out in the Fall of 2020:

INITIAL INDICATIONS - Aggregated \$ per ADA/FTES				
Former Members - Membership during affected years between 1986 and 06/07***				
Total AB218				
Member Type	Funding	20/21	21/22	22/23
K-12, Charters	\$ 9.73	\$ 3.24	\$ 3.24	\$ 3.24
CCD	\$ 4.80	\$ 1.60	\$ 1.60	\$ 1.60
CSU	\$ 2.69	\$ 0.90	\$ 0.90	\$ 0.90

How do we budget for this? What ADA should we use?

We suggest you review your ADA history for all years of membership with SELF, and select an ADA figure you feel comfortable budgeting with. You know your ADA history and trends best

- **A conservative estimate (K-12)** - take your highest ADA year of membership, let's say it was 2006/07 and ADA was 3,300: **3,300 X \$3.24 = \$10,692** for each fiscal year (3 years)
- **A moderate estimate (CCD)** – take your midpoint ADA year of membership, let's say it was 1997/98 and FTES was 20,000: **20,000 X \$1.60 = \$32,000** for each fiscal year (3 years)
- **An average estimate (CSU)** – determine average FTES over all years of participation, let's say it calculates to 280,000 FTES: **280,000 X \$0.90 = \$252,000** for each fiscal year (3 years)

* These are indications for budget purposes only, and represent an aggregate of 7 individual years of projected claims costs. We estimate they are worst case indications; actual invoice will vary depending on your actual years of participation if different from above, your attachment point (\$1M or \$5M), and your actual ADA/FTES for the years of participation. Invoices will detail each affected year, your SELF ADA/FTES per year, and the per ADA/FTES funding amount per year. **The 11 affected years that will be invoiced at this time are: 1987/88, 1991/92, 1993/94, 1996/97, 1997/98, 1999/00, 2006/07, 2012/13, 2015/16, 2016/17, 2017/18.**

**Either SELF or your Primary JPA will invoice your District, subject to your Primary JPA Pool's decision and other factors.

*** 1986 through 2006/07 is the most common participation period for our former members

The SELF Board will adopt final, per year funding rates, at its May 29th meeting. We will share that information as soon as it is available and if you have any questions contact us at (866) 453-5300.
